It is not primarily intended to penalize individuals who operate bicycles and skateboards in violation of the provisions contained herein, but rather to educate both children and adults regarding proper and safe riding practices, to ensure their safety and welfare and the safety and welfare of motorists and pedestrians, and to make riding an enjoyable experience.

2. Definitions.

As used in this chapter, the following terms shall have the meanings indicated:

bicycle," which means a low-speed electric bicycle equipped with a motor that provides assistance only when the rider is pedaling, and that ceases to provide assistance when the bicycle reaches the speed of 20 miles per hour; or "class 2 low-speed electric bicycle," which means a low-speed electric bicycle equipped with a motor that may be used exclusively to propel the bicycle, and that is not capable of providing assistance when the bicycle reaches the speed of 20 miles per hour.

LOW-SPEED ELECTRIC SCOOTER — Includes a scooter, as defined in N.J.S.A. 39:1-1, with a floorboard that can be stood upon by the operator, with handlebars, and with an electric motor that is capable of propelling the device with or without human propulsion at a maximum speed of less than 19 miles per hour. Shall also include a wheeled device that can be stood upon by the operator, with or without handlebars, and with an electric motor that is capable of propelling the device with or without human propulsion.
