Draft Budget Schedule - Complaints were received that Council did not have enough time before the December Council meeting where the budget was adopted. - A suggestion was made to start the workshops at 6:00 pm, and have one meeting for all Department heads first, the get feedback and make revisions. - The recommended schedule is to present the budget to Council at the October 25 Council meeting, hold workshops November 7, 14, 21 and December 5; the public hearing would be held December 12 prior to the last budget workshop so that any public comments could be taken into consideration at the workshop. This schedule will be presented at the September Pre-Council meeting.
