MEMORANDUM

TO: Honorable Mayor Babtunde Deinbo &
Honorable City Council Members

THRU: Nathan Mai-Lombardo, City Manager

FROM: Chief James Linhardt, Berkeley Fire Department

DATE: April XX, 2024

SUBJECT: Zoll Ventilator Purchase

Recommendation: The Fire Department is requesting to purchase two (2) Zoll Ventilators. The Fire Department has reviewed all aspects of the Zoll Ventilator (see attached quote sheet). Delivery of the two (2) Zoll Ventilators will be expected four to six weeks from the contract award date.

Background: The Fire Department currently uses disposable CPAP machines. Each disposable CPAP machine costs \$62.99 / each. The CPAP is also oxygen driven, so portable O2 has to be available. The cardiac effects of CPAP make patient improvement seem nearly instantaneous when applied to patients with acute fluid in the lungs. The effects in patients with exacerbations of COPD or pneumonia may take considerably longer as it takes time for continuous pressure to recruit collapsed alveoli. Additionally, when higher CPAP pressures are required for effect, the increased work of exhaling against CPAP can become extremely uncomfortable for the patient, and in some individuals, intolerable.

The Zoll Ventilators offer CPAP, Bilevel and other respiratory functions that our residents could need in case of an emergency. Bilevel offers the same support as CPAP with the added ability to further decrease work of breathing during exhalation and improve tidal volumes thereby clearing more CO2 than CPAP. It is a reasonable alternative for patients who are unable to tolerate CPAP, those who require high CPAP pressures.

Besides the up-front cost of the 2 ventilators and its equipment, the on-going price for the disposable pieces of the bilevel circuit and masks will cost around \$40.00 / each. The bilevel circuit can also run on room air O2 but can use portable O2 as well. The ventilators are compatible with our current Zoll Advance X-Series EKG monitors. This allows for an easier transfer of critical patient data to our EKG monitors and uploaded into our patient care reports. The ventilators are light weight, weighing on 9.5lbs and can fit easily in our EMS airway bags. They can also be used during respiratory and cardiac arrests. They provide the precise amount of air pressure and tidal volume, per the American Heart Association standards, needed to keep our patients perfusing until they arrive at a hospital and receive further medical care. Zoll and the City of Berkeley Fire Department are members of the Savvik Buying Group, which is national bidding group, so we are given the lowest possible price in the nation. Zoll's Savvik contract number and Public Safety Association Inc number is 2021-06. The City of Berkely Fire Department's Savvik membership number is 27691.

Supporting Documents: This a budgeted line item. It will come out of Budget Line 31-22-7100. See attached Zoll sole source letter & quote package.

Potential Objection: Penn Care Medical Supplies sells the Flow-Safe II disposable bilevel CPAP Kit for around \$80.00 / each. This still is oxygen driven but uses less portable O2. However while doing a nebulizer treatment through it, it will only allow CPAP. The Zoll Ventilator allows nebulizer treatments in both CPAP and bilevel. The closest EMS ventilator on the market to the Zoll Ventilator is Vyair ReVel Ventilator. It retails for around \$25,000 with Bound Tree Medical Supplies. The disposable circuit and masks will cost about \$50.00 / each.

Dear Scott:

We appreciate your selection of ZOLL® products. This letter serves as confirmation that ZOLL® Medical Corporation at 269 Mill Road in Chelmsford, Massachusetts, is the sole manufacturer and source of the ZVent Portable ventilator. ZOLL® or Erik Skoog, Territory Manager, will not sell the ZVent Portable Ventilator to City of Berkeley Fire Department through any vendor or dealer and no vendor or dealer is authorized to provide warranty or service.

The ZVent Portable ventilator includes the following features/specifications:

- Perform for 10 full hours on 1 charge
- Built in Rapid Charge to 90% in 2 hours if battery is completely depleted
- Oxygen Consumed Display
- Integral SpO2
- Smart Help Display
- Plethysmograph Waveform
- Altitude Compensation from -2000ft to +25,000ft
- Operation Temp Range -13 to 120deg F
- Total Weight 9.5lbs
- 11. Integrated Dove Tail Mount for easy on/off and the ability to secure the vent to multiple mounting solutions.

Should you have any questions or require additional information please contact me at Contracts@zoll.com.

Sincerely,

Jody Podgurski
Local Contracts Team Lead
