

Introduction: August 6, 2024
Public Hearing: August 20, 2024

**TOWNSHIP OF CHESTER
ORDINANCE 2024-18**

**AN ORDINANCE TO AMEND CHAPTER 166, WATER AND SEWAGE, OF THE CODE OF THE
TOWNSHIP OF CHESTER, MORRIS COUNTY, NEW JERSEY, TO ADD A NEW ARTICLE 5
ENTITLED "PRIVATELY OWNED SALT STORAGE"**

WHEREAS, the New Jersey Department of Environmental Protection issued the final Stormwater Discharge Master General Permit Renewal (Permit Number NJ0141852) in accordance with N.J.A.C. 7:14A on December 1, 2022; and

WHEREAS, the permit became effective on January 1, 2023; and

WHEREAS, Chester Township is assigned to Tier A under N.J.A.C. 7:14a-25.3(a)1; and

WHEREAS, Section IV.F.1.b.i. of the permit requires that municipalities assigned to Tier A adopt and enforce an ordinance requiring that piles of salt and other solid (granular) de-icing materials which are not stored in a permanent structure be covered by tarping when not in use and secured in a way to prevent its exposure to rain, snow, or stormwater run-on; and

WHEREAS, the New Jersey Department of Environmental Protection has issued a model Privately Owned Salt Storage ordinance for use by municipalities assigned to Tier A to comply with the permit requirements; and

WHEREAS, the Township desires to amend its requirements for privately owned salt storage to comply with the permit requirements; and

WHEREAS, the Township Council desires to address these deficiencies by adopting the issued model Privately Owned Salt Storage ordinance, with modifications, as permitted.

NOW THEREFORE, BE IT ORDAINED by the Township Council of Chester Township, County of Morris, and State of New Jersey that Chapter 166 of the Code for Chester Township is hereby amended as follows:

Section 1.

Chapter 166 of the Township Ordinances is hereby amended to add a new Article 5, entitled "Privately Owned Salt Storage", as follows:

Section 2.

**ARTICLE 5
PRIVATELY OWNED SALT STORAGE**

§166-18. Purpose. The purpose of this article is to prevent stored salt and other solid de-icing materials from being exposed to stormwater. This article establishes requirements for the storage of salt and other solid de-icing materials on properties not owned or operated by the municipality (privately-owned), including residences, in Chester Township to protect the environment, public health, safety and welfare, and to prescribe penalties for failure to comply.

§166-19. Definitions. For the purpose of this article, the following terms, phrases, words and their derivations shall have the meanings stated herein unless their use in the text of this article clearly demonstrates a different meaning. When consistent with the context, words used in the present tense include the future, words used in the plural number include the singular number, and words used in the singular number include the plural number. The word “shall” is always mandatory and not merely directory.

DE-ICING MATERIALS

Any granular or solid material such as melting salt or any other granular solid that assists in the melting of snow.

IMPERVIOUS SURFACE

A surface that has been covered with a layer of material that is highly resistant to infiltration by water.

STORM DRAIN INLET

The point of entry into the storm sewer system.

PERMANENT STRUCTURE

A permanent building or permanent structure that is anchored to a permanent foundation with an impermeable floor, and that is completely roofed and walled (new structures require a door or other means of sealing the access way from wind driven rainfall).

A fabric frame structure is a permanent structure if it meets the following specifications:

1. Concrete blocks, jersey barriers or other similar material shall be placed around the interior of the structure to protect the side walls during loading and unloading of de-icing materials; and
2. The design shall prevent stormwater run-on and run through, and the fabric cannot leak; and

3. The structure shall be erected on an impermeable slab; and
4. The structure cannot be open sided; and
5. The structure shall have a roll up door or other means of sealing the access way from wind driven rainfall.

PERSON

Any individual, corporation, company, partnership, firm, association, or political subdivision of this State subject to municipal jurisdiction.

RESIDENT

A person who resides on a residential property where de-icing material is stored.

§166-20. Deicing Material Storage Requirements.

- A. Temporary outdoor storage of de-icing materials in accordance with the requirements below is allowed between October 15th and April 15th:
 1. Loose materials shall be placed on a flat, impervious surface in a manner that prevents stormwater run-through; and
 2. Loose materials shall be placed at least 50 feet from surface water bodies, storm drain inlets, ditches and/or other stormwater conveyance channels; and
 3. Loose materials shall be maintained in a cone-shaped storage pile. If loading or unloading activities alter the cone-shape during daily activities, tracked material must be swept back into the storage pile, and the storage pile shall be reshaped into a cone after use; and
 4. Loose materials shall be covered as follows:
 - a. The cover shall be waterproof, impermeable, and flexible; and
 - b. The cover shall extend to the base of the pile(s); and
 - c. The cover shall be free from holes or tears; and
 - d. The cover shall be secured and weighed down around the perimeter to prevent removal by wind; and
 - e. Weight shall be placed on the cover(s) in such a way that minimizes the potential of exposure as materials shift and runoff flows down to the base of the pile.
 - (1) Sandbags lashed together with rope or cable and placed uniformly over the flexible cover, or poly-cord nets provide a suitable method. Items that can

potentially hold water (e.g., old tires) shall not be used; and

5. Containers must be sealed when not in use; and
 6. The site shall be free of all de-icing materials between April 16th and October 14th.
- B. De-icing materials should be stored in a permanent structure if a suitable storage structure is available. For storage of loose de-icing materials in a permanent structure, such storage may be permanent, and thus not restricted to October 15th – April 15th.
- C. All such temporary and/or permanent structures shall comply with all other applicable State, Local and Federal regulations, including, but not limited to, building codes and zoning regulations.
- D. The property owner, or owner of the de-icing materials if different, shall designate a person(s) responsible for operations at the site where these materials are stored outdoors, and who shall document that weekly inspections are conducted to ensure that the conditions of this article are met. Inspection records shall be kept on site and made available to the municipality upon request.
1. Residents who operate businesses from their homes that utilize de-icing materials are required to perform weekly inspections.

§166-21. Exemptions. Residents may store de-icing materials outside in a solid-walled, closed container that prevents precipitation from entering and exiting the container, and which prevents the de-icing materials from leaking or spilling out. Under these circumstances, weekly inspections are not necessary, but repair or replacement of damaged or inadequate containers shall occur within 2 weeks.

If containerized (in bags or buckets) de-icing materials are stored within a permanent structure, they are not subject to the storage and inspection requirements in §166-20. Piles of de-icing materials are not exempt, even if stored in a permanent structure.

This article does not apply to facilities where the stormwater discharges from de-icing material storage activities are regulated under another NJPDES permit.

§166-22. Enforcement. This article shall be enforced by the Chester Township Zoning Officer or his/her Designee during the course of ordinary enforcement duties.

§166-23. Violations and Penalties. Any person(s) who is found to be in violation of the provisions of this article shall have 72 hours to complete corrective action. Repeat violations and/or failure to complete corrective action shall result in fines as follows: First violation: \$200.00, Second violation: \$500.00, Third violation: \$1,000.00.

SECTION TWO. All ordinances or part of ordinances inconsistent with this ordinance are hereby repealed to the extent of such inconsistency.

SECTION THREE. If any section, paragraph, subdivision, clause or provision of this ordinance shall be adjudged invalid, such adjudication shall apply only to the section, paragraph, subdivision, clause or provision and the remainder of this ordinance shall be deemed valid and effective.

SECTION FOUR. This ordinance shall take effect upon its passage and publication according to law.
