

**AGREEMENT FOR PURCHASE AND SALE OF
STREET LIGHTING FACILITIES**

THIS AGREEMENT made between ROCHESTER GAS AND ELECTRIC CORPORATION (“RGE” or “Company”), a New York corporation having its principal place of business at 180 S. Clinton Ave, Rochester, New York, 14604 and the TOWN OF HENRIETTA (the “Town”), a duly organized municipal corporation of the State of New York having its principal office for the conduct of business located at 475 Calkins Road, Rochester NY 14623.

WITNESSETH:

WHEREAS, RGE owns and has for many years operated and maintained a system of street lighting poles, luminaires and lamps, mast arms, electrical connections and wiring for street lighting installed throughout the Town limits, which facilities are currently installed are hereafter collectively described as the “Facilities”, and

WHEREAS, the Town desires to purchase the Facilities and RGE is agreeable to selling the same; and

NOW, THEREFORE, in consideration of the mutual covenants herein expressed and other valuable consideration, the sufficiency of which they hereby acknowledge, RGE and the Town agree as follows:

1. **Sale of Facilities**

Subject to the terms expressed below, RGE agrees to sell to the Town, and the Town agrees to purchase from RGE, all RGE’s right, title and interest in the Facilities. An inventory of the Facilities is set forth in Schedule A, which is attached hereto and made a part hereof. While RGE believes Schedule A to be accurate and complete, it may or may not represent the Facilities in its entirety. The parties hereto acknowledge that it is the intent of this Agreement to transfer all of the Facilities to the Town, regardless of whether it is accurately described in Schedule A, and the future invoices for service to the Facilities shall be based upon Schedule A.

2. **Contents of the Facilities**

The Facilities consists of street lighting poles, luminaires and lamps, mast arms, their associated wiring, electrical connections and appurtenances related to the electrical functioning of the Facilities, all as reflected in Schedule A. The Facilities are a separate system isolated, or to be isolated as hereinafter provided, from the RGE distribution system at a number of fuses or switching locations known as disconnect points.

3. **Purchase Price**

The “Purchase Price” shall be Two hundred, seven thousand, two hundred fifty -five dollars and sixty two cents (\$207,255.62), which represents the fair market value of the Facilities. The pricing methodology for street light sales is as follows: Net Book Value (“NBV”) of the Facilities plus 15% Customer Protection Overhead (“CPO”) plus a 4.5% administration and general (“A&G”) expenses fee. Payment of the Purchase Price shall be made in full by wire transfer to an account designated by Company or by delivery of a certified bank check, without deduction, set-off or counterclaim, prior to the closing date. “Closing” and the issuance of a Bill of Sale to the Town shall occur in no more than 30 days after Customer has completed all requirements and approvals set forth below:

- 1) Payment of Purchase Price.
- 2) Provision of security for the Isolation Work, as outlined in Section 6.

Purchase Price Adjustment

The Company shall revise the Purchase Price prior to closing the transaction with the Customer if the NBV of the equipment increases from the NBV that was used to determine the Purchase Price and if that difference exceeds the CPO calculated on the original quoted NBV (“Variance”) as described below:

- i. If the Variance exceeds the calculated CPO, the Company shall calculate the difference between the CPO and the Variance and shall calculate additional CPO and A&G on that difference.
- ii. The final closing purchase price shall be re-calculated to include the Purchase Price; plus, the Variance; plus, additional CPO and A&G applied to the Variance.

For clarity, such Variance would be based on the following: If the increase in NBV is *equal to or less* than the calculated CPO (purchase agreement NBV * 15%), then there will be no adjustment to the Purchase Price. If the increase in NBV *exceeds* the calculated CPO, then the Company will calculate the difference between the CPO and the increase and will calculate additional CPO (15%) and A&G (4.5%) on that difference. The final closing price will therefore be re-calculated, and Customer will pay the newly calculated purchase price. Upon the assessment of a Variance, Company shall provide a detailed asset report to Customer at least thirty (30) days prior to closing.

4. **Operability of the Facilities**

RGE has maintained, and currently maintains, the operability of the Facilities in a manner consistent with filed tariff PSC No. 18 – Schedule for Electric Service Street Lighting (“PSC No. 18”). Until the Closing, RGE shall continue its regular program of operating and maintaining the Facilities.

5. **Transfer of the System**

A. The official transfer of the Facilities shall be deemed to occur as of the provision of a fully executed Bill of Sale to the Town after the date of the Closing (“Closing Date”).

B. RGE represents and warrants to the Town that:

RGE is the absolute owner of the Facilities free and clear of all liens, charges and encumbrances. Upon provision of the Bill of Sale to the Town, all right, title and interest to and in the Facilities shall vest in the Town free and clear of all liens, charges and encumbrances and the Town shall thereafter be solely responsible and liable for the operation, maintenance and condition of the Facilities, except as set forth herein to the contrary.

6. **System Isolation**

a) The Town, at its sole cost, shall isolate the Facilities from the RGE electric distribution system as more fully described below. The Town shall perform isolation work by qualified Town employees or employ a contractor acceptable to RGE to complete the isolation work. RGE’s acceptance of the contractor retained by the Town shall not be deemed to be an endorsement of the contractor’s qualifications to perform the isolation work, nor shall RGE, by its acceptance of the contractor, assume any liability for claim, third-party or otherwise, that may arise from the performance of the isolation work.

- b) The isolation work shall utilize fuses and/or switching/disconnect devices in accordance with the National Electric Safety Code, all applicable safety laws, regulations and standards, the applicable RGE electric service tariff and the design standards, processes and procedures deemed appropriate by RGE.
- c) The Isolation Work shall be completed within twenty-four (24) months after the Closing Date. Upon successful completion of Isolation Work, any associated security will be released within fifteen (15) days. If the isolation work has not been completed within this time period, RGE shall complete the isolation work and bill the Town for all costs associated with RGE’s performance of the isolation work in accordance with applicable provisions of the relevant tariff.
- d) On the Closing Date, the customer shall provide the Company with an irrevocable letter of credit or other form of security acceptable to the Company in an amount of Two Hundred Eighty One Thousand, Two Hundred Dollars and zero cents (\$281,200 US) (“Security”). Should the customer not provide proof of the installation of the disconnect devices plus any additional isolation work required by SC No. 2, as define below (“Isolation Work”) on all purchased street lights within twenty four (24) months, the Company shall notify the customer of its intention to perform the Isolation Work on the customer’s behalf. Upon completion of Isolation Work, the Company shall determine its actual costs of performing such Isolation Work, inclusive of all applicable overheads and shall invoice the customer for such amount. If that invoice is not paid within 15 days, the Company may draw on the Security provided by the customer. If the actual cost of the Isolation Work exceeds the Security amount drawn, Customer shall pay the Company such amount within 15 days. Once the Isolation Work is completed and the invoice for the Isolation Work is paid in full by Customer, the Company shall release the Security. Any Isolation Work amounts not paid by Customer will be included in the Company’s bill to the Customer for street lighting service and subject to termination of service if not paid when due.
- e) The Town shall provide ownership identification of its equipment per the requirements of PSC No. 18, Service Classification No. 2 Street Lighting Service – Energy Only (“SC No. 2”).

7. **Pole Attachment Agreement**

RGE shall enter into a Pole Attachment Agreement with the Town, which specifies the terms and conditions under which Town may attach streetlight facilities to RGE poles and perform maintenance work on such facilities. The Pole Attachment Agreement must be fully executed by both parties prior to the Closing Date.

8. **Service Classification**

Upon Closing, service for all Facilities sold to the Town will be transferred from PSC No. 18, Service Classification No. 1 Street Lighting Service – Available for Existing and New Standard Facilities, and Limited Contiguous Expansion (“SC No. 1”) to SC No. 2.

Customer also agrees to isolate any Town owned streetlight facilities in accordance with Section 6 above and SC No. 2 which is served under PSC No. 18, Service Classification No. 2 Street Lighting Service – Customer-Owned Equipment (“SC No.2”).

9. **Limitation of Warranty**

- a) **THE FOREGOING REPRESENTATIONS AND WARRANTIES ARE EXPRESSLY IN LIEU OF ANY OTHER EXPRESS OR IMPLIED WARRANTIES, INCLUDING ANY**

IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, AND OF ANY OTHER OBLIGATION ON THE PART OF RGE. THE FACILITIES ARE SOLD TO THE TOWN “AS IS” AND “WITH ALL FAULTS”.

- b) Commencing upon the transfer of the Facilities, the Town shall neither have nor bring any claim, proceeding or action against RGE for damages which it or its contractors or employees sustain, directly or indirectly, by reason of property damage, personal injury or death arising from the Facilities, its components, or the operation or non-operation of such Facilities and components, save only claims for failure of title under Section 5 above.

10. **Risk of Loss**

The risk of loss shall be on RGE until the issuance of the Bill of Sale to the Town after or upon the Closing Date, at which time the Town shall assume all risk of loss of the Facilities and its components.

11. **Indemnity**

The Town shall indemnify, defend and hold harmless RGE from and against all claims, damages, costs, penalties, suits and fees (including reasonable attorneys’ fees) (collectively, “Claims”) to the degree such Claims arise from (1) any use of, or work performed on, the Facilities by the Town or its employees, contractors or agents, after the Closing Date, or (2) the operation and/or maintenance of the Facilities after the Closing Date.

12. **Approvals**

This Agreement shall be subject to Approval of the sale by the New York State Public Service Commission in the form of this Agreement.

RGE and the Town shall use their best efforts to secure this approval in an appropriate form and timely fashion and to have the same available in time for the scheduled Closing.

13. **Taxes**

RGE shall pay real property or special franchise taxes applicable to the Facilities up to the time of Closing. The Town shall be responsible for all taxes for periods thereafter.

14. **Notices**

Except as otherwise provided herein, any notice to RGE hereunder shall be directed to:

Rochester Gas and Electric Corporation
Attn: Legal Department
180 S. Clinton Ave. 5th Floor
Rochester, New York 14604

Any notice to the Town hereunder shall be directed to:

Town Supervisor
Town of Henrietta
475 Calkins Road
Rochester, New York 14623

15. **Survival**

Any and all undertakings set forth in this Agreement are intended to and shall survive the Closing.

16. **Amendment**

Any amendment of this Agreement shall be in writing and signed by authorized representatives of RGE and the Town.

17. **Easements**

To the extent permitted by law, and subject to the reservation contained herein, RGE hereby assigns to the Town any rights RGE may have under any easement grants that encumber real property upon which any of the Facilities are located and that directly affect the ability of the Town to own and operate the Facilities. RGE hereby reserves any and all rights RGE may have under any easement grants to the extent such easement grants RGE the right to install, maintain, relocate, upgrade, operate, repair and/or replace any facilities other than the Facilities, including, but not limited to, electric and gas distribution and transmission facilities.

The Town shall defend, indemnify and hold RGE harmless from and against any and all claims, suits, losses, damages, expenses and/or costs that arise out of any acts of the Town that relate to the easement grants for the Facilities. RGE shall defend, indemnify and hold the Town harmless from and against any and all claims, suits, losses, damages, expenses and/or costs that relate only to the rights expressly maintained by RGE or which relate to facilities other than the Facilities. This assignment constitutes a quit claim transfer of any rights RGE may have under any easement grants, which rights are being assigned without any warranties whatsoever. Both parties shall execute any and all documents reasonably necessary to give full force and effect to this provision.

18. **Confidentiality**

Except as, and to the degree, required by law, regulation, order of a governmental authority or order of a court, or upon written consent of the other party, the Town and RGE, and their respective agents, employees, officers, directors, trustees and attorneys, shall keep and maintain this Agreement and all terms and provisions hereof in strict confidence during the term hereof and shall not transmit, reveal, disclose, or otherwise communicate the substance or any of the terms or provisions of this Agreement to any other person. In the event that the terms of this Agreement are required to be produced in any judicial or administrative proceeding or audit by a governmental agency, RGE and the Town shall each use commercially reasonable efforts to obtain a protective order or agreement in a form satisfactory to both parties before disclosing any of the terms hereof. If disclosure is so required, no consent shall be required, but notice of such disclosure shall be given to the other party prior to such disclosure, or as soon thereafter as possible. No party shall be required to exercise a higher degree of care than exercised with respect to its own proprietary information.

19. **Litigation**

To the knowledge of RGE, there is no litigation or proceeding, pending or threatened, against RGE affecting the sale of the Facilities at law or equity before any court, licensing authority or governmental agency.

20. **Entire agreement**

This Agreement represents the entire Agreement between RGE and the Town with respect to the sale and purchase of the Facilities. This Agreement supersedes all contemporaneous and prior writings between RGE and the Town with respect to the sale and purchase of the Facilities.

21. **Headings**

The headings of the sections of this Agreement are inserted for convenience only and are not intended to be weighed in construing its meaning.

IN WITNESS WHEREOF, RGE and the Town have executed this Agreement as of the dates written opposite their respective officers' signatures.

PROTECTIVE ORDER – ATTACHMENT A

ACKNOWLEDGEMENT

On behalf of: _____

I acknowledge receipt of a copy of the Purchase and Sales Agreement and the temporary waiver from the application of the Electrical Distribution Construction Standards in relation to the installation of streetlight circuit disconnect devices. I affirm that I have read and understand its terms and provisions. I further certify that I am an attorney representing the party named above, or an authorized representative of such party, and that I have full authority to execute this document.
