PIN: 16-05-01-415-028-0000

LOT 128 IN LANCASTER SQUARE UNIT THREE, BEING A SUBDIVISION IN THE SOUTHEAST 1/4 OF SECTION 1, TOWNSHIP 36
NORTH, RANGE 11, EAST OF THE THIRD PRINCIPAL MERIDIAN, ACCORDING TO THE PLAT THEREOF RECORDED MAY 12, 1978
AS DOCUMENT NO. R78-17189, IN WILL COUNTY, ILLINOIS.

Findings of Fact-“Exhibit B”**Standards for Variances**

Chapter 220-1207C(1-3) of the Code of the Village of Homer Glen lists the standards by which the Plan Commission shall make the findings of fact. The following are the categories with staff’s recommended findings in *italics*:

1. The Plan Commission shall not vary the provisions of this Ordinance as authorized unless it has made findings based upon the evidence presented to it in the following cases:

(a) That the property in question cannot yield a reasonable return if permitted to be used only under the conditions allowed by the regulations in that zone.

The property could indeed yield a reasonable return if permitted to be used only under the conditions allowed by the regulations in the R-5 Single-Family Residential District. However, the applicant desires privacy in the rear yard, which is very exposed due to the curve of Winchester Road.

(b) That the plight of the owner is due to unique circumstances.

The subject property is a corner side lot located on a curved street, which leaves the rear yard exposed to the public ROW. The applicant did not create the corner lot.

(c) That the variance, if granted, will not alter the essential character of the locality.

The variances, if granted, will not alter the essential character of the locality. The proposed fence will align with their neighbors’ fence and is not proposed to extend to the corner side property line. There are many properties in the subdivision with fencing.

2. A variance shall be recommended to the Village Board only if the evidence, in the judgment of the Plan Commission, sustains each of the three conditions enumerated in Subsection C(1).

3. For the purpose of supplementing the above standards, the Plan Commission, in making its determination, shall also take into consideration the extent to which the following facts, favorable to the applicant, have been established by the evidence:

(a) That the particular surroundings, shape, or topographical conditions of the specific property involved will bring a particular hardship upon the owner, as distinguished from a mere inconvenience, if the strict letter of the regulations was carried out.

The subject property, being a corner lot, has an exposed rear yard which reduced privacy. The property owner desires a fence to secure the yard, utilize the more of the yard, and gain privacy for their future pool plans.

(b) That the conditions upon which the petition for variance is based would not be applicable, generally, to other property within the same zoning classification.

The conditions for this variance would not be applicable to residential lots generally in the R-5 Zoning District, but could be applicable to other corner lots in the R-5 Single Family Zoning District.

- (c) That the purpose of the variance is not exclusively based upon a desire to make more money out of the property.

The purpose of this Variance is not exclusively based on the desire to make a profit out of the property, but for reasonable use of property, safety, and privacy.

- (d) That the alleged difficulty or hardship has not been created by any person presently having an interest in the property.

The applicant did not create a corner lot.

- (e) That the granting of the variance will not be detrimental to the public welfare or unduly injurious to other property or improvements in the neighborhood in which the property is located.

Village staff does not foresee the approval of these Variances as having a detrimental impact on the public welfare or being unduly injurious to other property or improvements in the Lancaster Square Unit 3 subdivision. The proposed fence will align with their neighbors' fence and is not proposed to extend to the corner side property line.

- (f) That the exterior architectural appeal and functional plan of any proposed structure will not be so at Variance with the exterior architectural appeal and functional plan of the structures already constructed, or in the course of construction in the immediate neighborhood or the character of the applicable district, as to cause a substantial depreciation in the property values within the neighborhood.

The Village's exterior materials standards do not apply to fences; instead, the Village permits a short list of acceptable fence materials stated previously in the staff report. The applicant is proposing a cedar fence, which matches the criteria. The proposed fence is complementary to a residential home and to the subdivision.

- (g) That the proposed variance will not impair an adequate supply of air to adjacent property, substantially increase the danger of fire, otherwise endanger the public safety or substantially diminish or impair property values within the neighborhood.

The proposed variances will not impair an adequate supply of air to the adjacent property, substantially increase the danger or fire, or substantially diminish or impair property values within the Lancaster Square Unit 3 subdivision. Staff also does not see the fence endangering public safety.
