§ 400-37 Exceptions.

This article shall not apply to municipal, state, or federal governments.

§ 400-38 Application to place obstruction in right-of-way.

Any person desiring to place an obstruction in, on, or upon a public right-of-way, other than plantings within Indiana Borough must apply for a permit by filing an application with the Borough Manager or his designee on a form provided by the Borough of Indiana. No obstruction shall be erected or maintained prior to a permit being issued by the Borough of Indiana. The Borough Manager or his designee shall determine the

time period for which the permit will be valid. The Borough Manager or his designee may issue a permit providing that the obstruction will not create a safety hazard. Each application shall have attached to it a plot plan showing the location of the obstruction. Permits for the erection of obstructions shall not be issued unless it is determined by the Borough Manager or his designee that there is no other area on the property where the obstruction could be feasibly located.

§ 400-39 Planting standards.

Placement of plantings are subject to the following:

- A. Plants placed in the Borough right-of-way cannot block vehicle operator sight distances along roadways or impede the use of public sidewalks.
- B. All plantings/obstructions are to be maintained from noxious weeds by the resident.
- C. All plantings may not exceed a maximum height of 36" without the need for pruning.
- D. On closed section roads, plant material should not be located so as to impede people from opening doors of vehicles parked at the edge of pavement or curb line.
- E. Any plant material installed on the Borough right-of-way by residents will not be replaced by the Borough if damaged as a result of Borough maintenance activities. To minimize the potential for damage resulting from maintenance activities plantings should not be located within 1' of the edge of pavement on open section roads, the back edge of curb on closed sections roads, or the sidewalk if present.
- F. All parts of planting and planting material located on the right-of-way (other than trees) must be kept within the confines of the planting area.
- G. Plantings must allow for natural drainage of surface water flows across the right-of-way and must not cause ponding of water on either the public sidewalk or adjacent properties or interfering with storm drains.
- H. The Borough assumes no liability for any adverse consequences resulting from privately installed plantings located on the public right-of-way.
- I. Indiana Borough's Public Works/Parks Department reserves the right to order removal of obstructions, if valid complaints are received and verified.
