PROBLEM IDENTIFICATION

During the last 5 years, no behavior on Missouri roadways has contributed to traffic fatalities as frequently as speed and aggressive driving. From 2017-2021, there were 2,547 fatalities involving a speeding or aggressive driver, accounting for 53% of all traffic fatalities. Speed and aggressive driving are cited in fatal crash reports as a contributing circumstance more than twice as often as impaired driving, and feedback and citation data from law enforcement agencies indicate speeds are up significantly during the last 3 years.

The City of Kearney is approximately ten (10) miles north of Kansas City, Missouri and is serviced by three (3) main highway thoroughfares, Interstate 35, Missouri 92 Highway and Missouri 33 Highway. Late last year, construction on a second exit ramp was completed at the twenty five (25) mile marker (also known as 19th Street) providing some relief for the traffic congestion on Missouri 92 Highway during peak hours. The city has a large truck stop for commercial motor vehicles that attracts on average 8,600 commercial vehicles per day. Additionally, late last year we implemented a license plate reader system that is capable of counting vehicles on a monthly basis. The system revealed that over a period between 12-14-2023 to 01-12-2024, Missouri 92 Highway saw 82,572 different vehicles with 332,481 total plate reads between the two (2) camera locations. Over the same time period on Missouri 33 Highway the system logged 9,262 different vehicles with 20,527 total plate reads between the two (2) cameras. For the entire city during the same period of time a total of 99,227 different vehicles were logged with 708,427 total plates read.

This data indicates to us that not only do we have vehicles that exit the interstate and travel to our businesses near the interstate, but there is also a large amount of traffic that is local to our area and traveling throughout the city. Kearney has two (2) elementary schools developed on Missouri 33 Highway that attract children at usual school times to walk along and cross over Missouri 33 Highway. Even though officers and school officials utilize hand held stop signs to assist the students safe crossing of the highway, there have been multiple instances in which pedestrian's were nearly struck due to drivers not following signage. One common violation that officers see daily is illegal turns out of businesses in an attempt to gain easier access to Interstate 35. Kearney continues to be a member of the Northland Traffic Task Force and participates in the statewide mobilizations whenever feasible. We continue to see an increased amount of traffic as the City of Kearney continues to expand.

In 2023, Kearney saw crashes that resulted in four (4) serious injuries and thirty (30) minor injuries. Of the 151 crashes in calendar year 2023, the following number of probable contributing circumstances were documented: Speed - 17 crashes, Improper passing - 2 crashes, Following too close - 21 crashes, Failure to yield - 29 crashes, alcohol related - 3 crashes, inattention - 14 crashes, all other circumstances - 65 crashes.

As our agency has grown some of our patrol vehicles do not have moving radar. With the implementation of moving radars we would be able to reduce the number of traffic complaints that we receive by increasing deterrence through citations. Most of the problem areas that we receive complaints on are not feasible to sit and run stationary radar with a vehicle mounted radar system as the side streets require us to sit perpendicular to the roadway we are trying to enforce speed limits on.

GOALS/OBJECTIVES

Core Performance Measure Goals:

Based on a goal of 0 fatalities by 2030, Missouri is setting a five-year average fatality target of 897.6 by December 31, 2026.

Based on a goal of 0 serious injuries by 2040, Missouri is setting a five-year average serious injury target of 4,486.1 by December 31, 2026.

Based on a goal of 0 fatalities by 2030, Missouri is setting a five-year average speed related fatality target of 293.8 by December 31, 2026.

Through this project the Kearney Police Department hopes to do the following within the City of Kearney:

- A. Reduce the number of hazardous moving violations occurring within our jurisdiction.
- B. Reduce the number of road rage incidents.
- C. Reduce the number of vehicle crashes.
- D. Reduce the number of injuries.
- E. Aid the state in reaching it's goal of zero (0) fatalities by 2030.

PROJECT DESCRIPTION

With these grant funded patrols, our presence will be more visible to the travelling motorists. The driver's safety and situational awareness will be increased by our visibility due to these grant funded patrols and should reduce the number of vehicle crashes by slowing vehicles down both through deterrence and/or citations.

As our agency has grown, some of the patrol vehicles do not have moving radar. This project would outfit the deficient vehicles with moving radar and enable those officers to enforce speed limits by other means aside from pacing a vehicle . The project would also allow the department to purchase and disburse handheld LIDAR speed measuring devices to allow officers to sit perpendicular to the roadway that speeds are being enforced on and be effective in deterrence over a longer period of time opposed to the short amount of time driving through the several long block section of roadways that receive the complaints.

49 If equipment or supplies are requested to conduct this project, explain below why it is needed and how it will be used.

As our agency has grown some of our patrol vehicles do not have moving radar units. With the implementation of moving radars we would be able to reduce the number of traffic complaints that we receive by increasing deterrence through citations. Most of the problem areas that we receive complaints on are not feasible to sit and run stationary radar with a vehicle mounted radar system as the side streets require us to sit perpendicular to the roadway we are trying to enforce speed limits on.

PROJECT EVALUATION

The MHTC will administratively evaluate this project. Evaluation will be based, at a minimum, upon the following:

1. Law enforcement compliance with state UCR, Racial Profiling, and MOCARS reporting requirements (law enforcement contracts only)
2. Timely submission of monthly reimbursement vouchers and appropriate documentation to support reimbursement for expenditures (i.e., personal services, equipment, materials)
3. Timely submission of periodic reports (i.e., monthly, quarterly) as required
4. Timely submission of the Year End Report of activity (due within 30 days after contract completion date)
5. Attaining the Goals set forth in this contract
6. Accomplishing the Objectives* established to meet the project Goals, such as:
 - Enforcement activities (planned activities compared with actual activities)
 - Programs (number and success of programs held compared to planned programs, evaluations if available)
 - Training (actual vs. anticipated enrollment, student evaluations of the class, student test scores on course examinations, location of classes, class cancellation information)
 - Equipment purchases (timely purchase of equipment utilized to support and enhance the traffic safety effort; documentation of equipment use and frequency of use)
 - Public awareness activities (media releases, promotion events, or education materials produced or purchased)
 - Other (any other information or material that supports the Objectives)
7. The project will be evaluated by the Highway Safety and Traffic Division through annual crash analysis

Evaluation results will be used to determine:

- The success of this type of activity in general and this particular project specifically;
- Whether similar activities should be supported in the future; and
- Whether grantee will receive funding for future projects

We will review our traffic crash data and hope to show a reduction in the numbers of crashes and seriousness of injuries.

Vouchers should be received by the MHTC within ten (10) working days from the date of the authorizing official/project director's signature. Subrecipient should report monthly, or at least quarterly, to MHTC using the online Grant Management System. For projects where salaried positions are awarded, claim voucher and activity reports must be submitted *monthly*. Subrecipient must ensure complete, accurate and final voucher and supporting documentation is received by the MHTC no later than November 15, which is after the end of the Federal fiscal year for which the final voucher pertains. Final payment is contingent upon receipt of the complete, accurate and final voucher.

C. ACCOUNTING: The Subrecipient shall maintain all documentation in file for audit review; failure to provide supporting documentation at the time of audit could result in questioned costs. The Subrecipient must document the following: (1) Receipt of federal funds, (2) date and amount paid to employees, (3) employee's timesheet (regular hours and overtime hours). A subrecipient that expends less than \$750,000 during the subrecipient's fiscal year in Federal awards is exempt from Federal audit requirements for that year, except as noted in 2 CFR §200.503 Relation to other audit requirements, but records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO). Failure to furnish an acceptable audit may be basis for refunding federal funds to the MHTC. Cost records and accounts pertaining to the work covered by this contract shall be kept available for inspection for representatives of the MHTC for a period of three (3) years following date of final payments. Copies of such records shall be made available upon request.

The Civil Rights Restoration Act of 1987 clarified the original intent of Congress, with respect to Title VI of the Civil Rights Act of 1964 and other non-discrimination requirements (the Age Discrimination Act of 1975, and Section 504 of the Rehabilitation Act of 1973), by restoring the broad, institutional-wide scope and coverage of these nondiscrimination statutes and requirements to include all programs and activities of the Recipient, so long as any portion of the program is Federally assisted.

Specific Assurances

More specifically, and without limiting the above general Assurance, the Recipient agrees with and gives the following Assurances with respect to its Federally assisted Highway Safety Grant Program:

- A. The Recipient agrees that each "activity," "facility," or "program," as defined in § 21.23(b) and (e) of 49 CFR part 21 will be (with regard to an "activity") facilitated, or will be (with regard to a "facility") operated, or will be (with regard to a "program") conducted in compliance with all requirements imposed by, or pursuant to the Acts and the Regulations.
- B. The Recipient will insert the following notification in all solicitations for bids, Requests For Proposals for work, or material subject to the Acts and the Regulations made in connection with all Highway Safety Grant Programs and, in adapted form, in all proposals for negotiated agreements regardless of funding source:
"The [name of Recipient], in accordance with the provisions of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C 2000d to 2000d-4) and the Regulations, hereby notifies all bidders that it will affirmatively ensure that in any contract entered into pursuant to this advertisement, disadvantaged business enterprises will be afforded full and fair opportunity to submit bids in response to this invitation and will not be discriminated against on the grounds of race, color, or national origin in consideration for an award."
- C. The Recipient will insert the clauses of appendix A and E of DOT Order 1050.2A in every contract or agreement subject to the Acts and the Regulations.
- D. The Recipient will insert the clauses of appendix B of DOT Order 1050.2A, as a covenant running with the land, in any deed from the United States effecting or recording a transfer of real property, structures, use, or improvements thereon or interest therein to a Recipient.
- E. That where the Recipient receives Federal financial assistance to construct a facility, or part of a facility, the Assurance will extend to the entire facility and facilities operated in connection therewith.
- F. That where the Recipient receives Federal financial assistance in the form of, or for the acquisition of, real property or an interest in real property, the Assurance will extend to rights to space on, over, or under such property.

CONTRACT CONDITIONS - PAGE 6

- G. That the Recipient will include the clauses set forth in appendix C and appendix D of DOT Order 1050.2A, as a covenant running with the land, in any future deeds, leases, licenses, permits, or similar instruments entered into by the Recipient with other parties:

 - 2. for the construction or use of, or access to, space on, over, or under real property acquired or improved under the applicable activity, project, or program.
- H. That this Assurance obligates the Recipient for the period during which Federal financial assistance is extended to the program, except where the Federal financial assistance is to provide, or is in the form of, personal property, or real property, or interest therein, or structures or improvements thereon, in which case the Assurance obligates the Recipient, or any transferee for the longer of the following periods:
 - 1. the period during which the property is used for a purpose for which the Federal financial assistance is extended, or for another purpose involving the provision of similar services or benefits; or
 - 2. the period during which the Recipient retains ownership or possession of the property.
- I. The Recipient will provide for such methods of administration for the program as are found by the Secretary of Transportation or the official to whom he/she delegates specific authority to give reasonable guarantee that it, other recipients, sub-recipients, sub-grantees, contractors, subcontractors, consultants, transferees, successors in interest, and other participants of Federal financial assistance under such program will comply with all requirements imposed or pursuant to the Acts, the Regulations, and this Assurance.

Buy America requires a State, or subrecipient, to purchase only steel, iron and manufactured products produced in the United States with Federal funds, unless the Secretary of Transportation determines that such domestically produced items would be inconsistent with the public interest, that such materials are not reasonably available and of a satisfactory quality, or that inclusion of domestic materials will increase the

cost of the overall project contract by more than 25 percent. In order to use Federal funds to purchase foreign produced items, the State must submit a waiver request that provides an adequate basis and justification to and approved by the Secretary of Transportation.

All items purchased must be compliant with the National Highway Traffic Safety Administration (NHTSA) interpretation of the Buy America Act including, but not limited to:

1. Items valued over \$5,000 per unit must be manufactured or assembled in the United States of America, or as allowed by a current Buy America Act waiver issued by the NHTSA;
2. All vehicles, motorcycles, trailers, and other similar conveyances must be manufactured or assembled in the United States of America regardless of cost.

<https://www.nhtsa.gov/sites/nhtsa.gov/files/buy-america-act-revised-11202015.pdf>

Furthermore, the State and each subrecipient will follow the guidelines of 2 C.F.R. § 200.322, Domestic Preferences for Procurements. As appropriate and to the extent consistent with law, the non-Federal entity should, to the greatest extent practicable under a Federal award, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States.

XXVI. PROHIBITION ON USING GRANT FUNDS TO CHECK FOR HELMET USAGE

(Applies to subrecipients as well as States)

The State and each subrecipient will not use 23 U.S.C. Chapter 4 grant funds for programs to check helmet usage or to create checkpoints that specifically target motorcyclists.

XXVII. POLICY ON SEAT BELT USE

In accordance with Executive Order 13043, Increasing Seat Belt Use in the United States, dated April 16, 1997, the Subrecipient is encouraged to adopt and enforce on-the-job seat belt use policies and programs for its employees when operating company-owned, rented, or personally-owned vehicles. The National Highway Traffic Safety Administration (NHTSA) is responsible for providing leadership and guidance in support of this Presidential initiative. For information and resources on traffic safety programs and policies for employers, please contact the Network of Employers for Traffic Safety (NETS), a public-private partnership dedicated to improving the traffic safety practices of employers and employees. You can download information on seat belt programs, costs of motor vehicle crashes to employers, and other traffic safety initiatives at www.trafficsafety.org. The NHTSA website (www.nhtsa.gov) also provides information on statistics, campaigns, and program evaluations and references.

States are also encouraged to conduct workplace safety initiatives in a manner commensurate with the size of the business, such as establishment of new rules and programs or re-evaluation of existing programs to prohibit text messaging while driving, and education, awareness, and other outreach to employees about the safety risks associated with texting while driving.

Subrecipient agencies with positions that are funded via Highway Safety grants are expected to participate (or send a representative) in the above functions as much as possible.

XXX. PROHIBITION ON TELECOMMUNICATIONS AND VIDEO SURVEILLANCE

The National Defense Authorization Act of Fiscal Year 2019 (Pub. L. 115-232) prohibits Federal grant funds from being obligated or expended to procure or obtain (or to enter into, extend, or renew a contract to procure or obtain) certain covered telecommunications equipment, services, or systems. States and subrecipients should refer to the Super Circular for more information on what equipment and companies this prohibition covers.

Equipment regularly purchased under NHTSA grants that may be subject to this provision could include: mobile phones, landlines, and the internet. Note that this provision prohibits purchasing these (and other) items produced by certain companies; items produced by non-prohibited companies are still potentially allowable.

No State or its subrecipient, including its officers, employees or agents, shall perform or continue to perform under a grant or cooperative agreement, whose objectivity may be impaired because of any related past, present, or currently planned interest, financial or otherwise, in organizations regulated by NHTSA or in organizations whose interests may be substantially affected by NHTSA activities. Based on this policy:

- A. The recipient shall disclose any conflict of interest identified as soon as reasonably possible, making an immediate and full disclosure in writing to NHTSA. The disclosure shall include a description of the action which the recipient has taken or proposes to take to avoid or mitigate such conflict.
- B. NHTSA will review the disclosure and may require additional relevant information from the recipient. If a conflict of interest is found to exist, NHTSA may (a) terminate the award, or (b) determine that it is otherwise in the best interest of NHTSA to continue the award and include appropriate provisions to mitigate or avoid such conflict.
- C. CONTRACT REQUIREMENTS

THE FOLLOWING REQUIREMENTS ONLY APPLY TO CONTRACTS THAT INCLUDE TRAINING

Subrecipients offering the MHTC-funded courses must adhere to the following standard elements required for training contracts:

- A. A course schedule must be presented to the MHTC program coordinator prior to the proposed training . The schedule should include: title of course; date(s); time; exact location; and agenda. Any changes to the course schedule must have prior approval from the MHTC.
- B. Each student must complete a survey form at the completion of the workshop/training. The survey will ask a series of questions concerning adequacy of: training received; instructor's presentation; training facility/location; and worth of the training.
- C. The Subrecipient must provide a sign-up sheet for every class when submitting a reimbursement request for the course (a typed list of everyone who registered is not acceptable). The sign-up sheet must capture the following information:

- E. Copies of the student evaluations, number of students enrolled/number of students attending, agenda/syllabus/curriculum, and participant sign-up sheets must be retained in Subrecipient's files after the training has been conducted and available for MHTC review upon request.

THE FOLLOWING REQUIREMENTS APPLY TO LAW ENFORCEMENT AGENCIES ONLY

A. PROBLEM IDENTIFICATION

Subrecipient must develop a selected traffic enforcement plan by evaluating crash data involving fatal , disabling and moderate injuries. This will be done on an annual basis to determine the highest crash locations, to include: month of year, day of week, time of day, and causation factors. This plan must be used to determine locations utilized in site selection for conducting enforcement efforts. Any changes to the enforcement plan must be made in writing to the MHTC project coordinator in advance of enforcement efforts.

B. PROJECT ACTIVITIES

1. Enforcement activities by the Subrecipient must remain at the current level. Enforcement efforts provided by this contract must be in addition to current enforcement activities.
2. Officers will be permitted to issue multiple citations and/or written warnings to drivers who have committed several violations.
3. High visibility enforcement is a key strategy to reducing traffic crashes ; therefore, law enforcement officers working overtime projects are strongly encouraged to make at least three (3) contacts per hour when conducting an enforcement project.
4. Subrecipient is expected to participate in associated national or state mobilization efforts in conjunction with , or at the direction of, the Highway Safety and Traffic Division. These mobilizations include, but are not limited to: Click It or Ticket campaign, Drive Sober or Get Pulled Over campaign, Youth Seat Belt enforcement campaign, Holiday Impaired Driving campaign, and quarterly enforcement efforts. Mobilization reporting efforts shall be completed using the online mobilization reporting form located at: <https://mobilization.rejis.org>.
5. Only law enforcement work performed by a duly licensed, Peace Officer Standards and Training (POST) certified law enforcement officer will be reimbursed.
6. The Subrecipient will not be eligible for reimbursement for any individual law enforcement officer working under this grant in excess of 40 hours for any two week pay period. The Subrecipient will not be eligible for reimbursement for any individual law enforcement officer working under this grant where said officer is claiming to have worked as a law enforcement officer for more than 16 hours in any 24 hour period.

C. PARTNERSHIPS

Law Enforcement agencies are strongly encouraged to participate in the Law Enforcement Traffic Safety Advisory Council (LETSAC) and attend the annual conference. Agencies located within the metropolitan areas of St. Louis or Kansas City should participate in Operation Impact or Operation Gateway (traffic safety task forces).

D. ALLOWABLE COSTS

Full-time, part-time and reserve officers are eligible to participate in overtime enforcement projects. Part-time and reserve officers must have the same authority as a full-time permanent officer. MHTC will reimburse Subrecipient at officer's standard rate of pay in accordance with Subrecipient policies and procedures regarding standard rate of pay and overtime rate of pay. The Subrecipient will not be reimbursed at the overtime rate for work that according to Subrecipient's own policies and procedures does not constitute overtime. Non-POST certified personnel may be allowed, at the sole discretion of MHTC, in a support/administrative role.

Exceptions to allowable costs may be made with prior written permission of the MHTC.

E. DRUNK DRIVING ENFORCEMENT PROJECTS

1. Those officers conducting standardized field sobriety testing must have 24 hours of Standardized Field Sobriety Test training to participate in grant funded enforcement efforts.
2. Agency should participate in quarterly enforcement efforts and the national impaired driving crackdowns held annually.

F. SOBRIETY CHECKPOINTS

Unless otherwise prohibited by state statute or appropriation,

1. The MHTC will fund enforcement agencies to conduct sobriety checkpoints in accordance with standards outlined in the Sobriety Checkpoint Reference Manual and the Sobriety Checkpoint Supervisor Training program.
2. Sobriety checkpoint enforcement efforts must be coupled with appropriate public information efforts to increase the perceived risk of arrest and to enhance the actual risk of arrest.
3. Enforcement statistics and the agency's sobriety checkpoint operations plan must be submitted with reimbursement vouchers.

G. PURSUIT POLICIES

Law enforcement agencies are encouraged to follow the guidelines established for vehicular pursuits issued by the International Association of Chiefs of Police that are currently in effect. (23 U.S.C. 402(j))

PROBLEM IDENTIFICATION

During the last 5 years, no behavior on Missouri roadways has contributed to traffic fatalities as frequently as speed and aggressive driving. From 2017-2021, there were 2,547 fatalities involving a speeding or aggressive driver, accounting for 53% of all traffic fatalities. Speed and aggressive driving are cited in fatal crash reports as a contributing circumstance more than twice as often as impaired driving, and feedback and citation data from law enforcement agencies indicate speeds are up significantly during the last 3 years.

The City of Kearney is approximately ten (10) miles north of Kansas City, Missouri and is serviced by three (3) main highway thoroughfares, Interstate 35, Missouri 92 Highway and Missouri 33 Highway. Late last year, construction on a second exit ramp was completed at the twenty five (25) mile marker (also known as 19th Street) providing some relief for the traffic congestion on Missouri 92 Highway during peak hours. The city has a large truck stop for commercial motor vehicles that attracts on average 8,600 commercial vehicles per day. Additionally, late last year we implemented a license plate reader system that is capable of counting vehicles on a monthly basis. The system revealed that over a period between 12-14-2023 to 01-12-2024, Missouri 92 Highway saw 82,572 different vehicles with 332,481 total plate reads between the two (2) camera locations. Over the same time period on Missouri 33 Highway the system logged 9,262 different vehicles with 20,527 total plate reads between the two (2) cameras. For the entire city during the same period of time a total of 99,227 different vehicles were logged with 708,427 total plates read.

This data indicates to us that not only do we have vehicles that exit the interstate and travel to our businesses near the interstate, but there is also a large amount of traffic that is local to our area and traveling throughout the city. Kearney has two (2) elementary schools developed on Missouri 33 Highway that attract children at usual school times to walk along and cross over Missouri 33 Highway. Even though officers and school officials utilize hand held stop signs to assist the students safe crossing of the highway, there have been multiple instances in which pedestrian's were nearly struck due to drivers not following signage. One common violation that officers see daily is illegal turns out of businesses in an attempt to gain easier access to Interstate 35. Kearney continues to be a member of the Northland Traffic Task Force and participates in the statewide mobilizations whenever feasible. We continue to see an increased amount of traffic as the City of Kearney continues to expand.

In 2023, Kearney saw crashes that resulted in four (4) serious injuries and thirty (30) minor injuries. Of the 151 crashes in calendar year 2023, the following number of probable contributing circumstances were documented: Speed - 17 crashes, Improper passing - 2 crashes, Following too close - 21 crashes, Failure to yield - 29 crashes, alcohol related - 3 crashes, inattention - 14 crashes, all other circumstances - 65 crashes.

As our agency has grown some of our patrol vehicles do not have moving radar. With the implementation of moving radars we would be able to reduce the number of traffic complaints that we receive by increasing deterrence through citations. Most of the problem areas that we receive complaints on are not feasible to sit and run stationary radar with a vehicle mounted radar system as the side streets require us to sit perpendicular to the roadway we are trying to enforce speed limits on.

GOALS/OBJECTIVES

Core Performance Measure Goals:

Based on a goal of 0 fatalities by 2030, Missouri is setting a five-year average fatality target of 897.6 by December 31, 2026.

Based on a goal of 0 serious injuries by 2040, Missouri is setting a five-year average serious injury target of 4,486.1 by December 31, 2026.

Based on a goal of 0 fatalities by 2030, Missouri is setting a five-year average speed related fatality target of 293.8 by December 31, 2026.

Through this project the Kearney Police Department hopes to do the following within the City of Kearney:

- A. Reduce the number of hazardous moving violations occurring within our jurisdiction;
- B. Reduce the number of road rage incidents;
- C. Reduce the number of vehicle crashes;
- D. Reduce the number of injuries;
- E. Aid the state in reaching it's goal of zero (0) fatalities by 2030.

PROJECT DESCRIPTION

With these grant funded patrols, our presence will be more visible to the travelling motorists. The driver's safety and situational awareness will be increased by our visibility due to these grant funded patrols and should reduce the number of vehicle crashes by slowing vehicles down both through deterrence and/or citations.

As our agency has grown, some of the patrol vehicles do not have moving radar units. This project would outfit the deficient vehicles with moving radar and enable those officers to enforce speed limits by other means aside from pacing a vehicle . The project would also allow the department to purchase and disburse handheld lidar speed measuring devices to allow officers to sit perpendicular to the roadway that speeds are being enforced on and be effective in deterrence over a longer period of time opposed to the short amount of time driving through the several long block section of roadways that receive the complaints.

PROJECT EVALUATION

The MHTC will administratively evaluate this project. Evaluation will be based, at a minimum, upon the following:

1. Law enforcement compliance with state UCR, Racial Profiling, and MOCARS reporting requirements (law enforcement contracts only)
2. Timely submission of monthly reimbursement vouchers and appropriate documentation to support reimbursement for expenditures (i.e., personal services, equipment, materials)
3. Timely submission of periodic reports (i.e., monthly, quarterly) as required
4. Timely submission of the Year End Report of activity (due within 30 days after contract completion date)
5. Attaining the Goals set forth in this contract
6. Accomplishing the Objectives* established to meet the project Goals, such as:
 - Enforcement activities (planned activities compared with actual activities)
 - Programs (number and success of programs held compared to planned programs, evaluations if available)
 - Training (actual vs. anticipated enrollment, student evaluations of the class, student test scores on course examinations, location of classes, class cancellation information)
 - Equipment purchases (timely purchase of equipment utilized to support and enhance the traffic safety effort ; documentation of equipment use and frequency of use)
 - Public awareness activities (media releases, promotion events, or education materials produced or purchased)
 - Other (any other information or material that supports the Objectives)
7. The project will be evaluated by the Highway Safety and Traffic Division through annual crash analysis

Evaluation results will be used to determine:

- The success of this type of activity in general and this particular project specifically ;
- Whether similar activities should be supported in the future; and
- Whether grantee will receive funding for future projects

We will review our traffic crash data and hope to show a reduction in the numbers of crashes and seriousness of injuries .
