

1. § A162-1(A)(1)(e):

New wording:

(e) Legal fees of the Village Counsel at the rates approved by the Board of Trustees.

2. § A162-1(B)(8)

New wording:

(8) For a denial letter to appeal to the Board of Appeals, the fee shall be \$500 and an additional \$250 for each variance. In the event that an applicant revises the plans at any time or from time to time after the initial review, an additional fee shall be required for each revision, calculated in the same manner as the initial fee. For clarity:

(a) If there is only one variance required, the fee shall be \$750.

(b) If there are two separate portions of a structure that each require the same variance, each portion shall be treated as a separate variance.

(c) If a portion of a structure requires variances from more than one provision of the Village Code each provision will be deemed a separate variance. Accordingly, if a variance is sought to reduce a side yard from 28 feet to 19 feet, that will result in an aggregate side yard of 50 feet instead of 65 feet, there would be 3 variances: side yard, aggregate side yard, and projections into a side yard. It also might include a sky plane variance.

3. § A162-1(B)(13):

New wording:

(13) There shall be no charge to review revised plans the first two time a review is requested or required. For each and every time thereafter, there shall be a permit fee equal to 10% of the original permit fee..

4. § A162-1(B)(16)

New subdivision:

(16) Additional inspections. When more than two inspections are required for the same work because after the first two inspections the work that was inspected was not complete and/or not correct, for each inspection for that work after the second inspection, the fee shall be \$1,000.00.

5. § A162-1(Q)(1):

New wording:

(1) Unless otherwise provided herein, all applications pursuant to Chapter 161 to the Board of Appeals and the other boards and commissions of the Village shall be \$1,000. In addition, each time there is a submission of redesigned or other changed plans to the Board of Appeals or any other board or commission, which the Building Department reviews for such board, after a set of plans had already been reviewed by the Building Department, there shall be an additional fee of \$1,000.
