Chapter 180, Section 180-109 of the Code is amended to add the following Subsection G:

"G. Natural Resource Mitigation Alternative

An applicant proposing to develop an industrial use within the Light Industrial Zoning District shall be exempt from the natural resource protection rates in Section 180-95.B and be permitted to exceed the net buildable site area permitted by Section 180-95.C(2)(c) ("Permitted Net Buildable Site Area"), utilizing a greater area of natural resource protection land than would be otherwise permitted by the Resource Protection Standards contained in Section 180-95 herein ("Excess Resource Utilization"), provided the Applicant dedicates to the Township for preservation an amount of land equal to the Excess Resource Utilization in accordance with the following requirements:

- (1) The Excess Resource Utilization shall be the difference between the resource protection land calculated by the Resource Protection Land formulas in Section 180-95.C(2)(b) ("Resource Protection Land") and the Applicant's proposed resource protection land (which is the difference between the Base Site Area pursuant to Section 180-95.C(2)(a) and Applicant's proposed buildable site area) ("Proposed Resource Protection Land"). The Applicant shall be permitted to dedicate land in excess of what is required if accepted by the Township.
- (2) The Applicant shall provide drawings and calculations clearly showing the Resource Protection Land, the Proposed Resource Protection Land, Applicant's proposed buildable site area, and the Excess Resource Utilization, and noting that it proposes to develop the use in accordance with this Subsection G.
 - (a) An additional plan sheet showing the limits of proposed buildable area and total acreage of existing environmentally protected lands is required.

- (b) Calculations shall be included on the plans that accurately reflect the Permitted Net Buildable Site Area, the Resource Protection Land, the Base Site Area, the Proposed Resource Protection Land, the Excess Resource Utilization, and the minimum amount of land that is required to be dedicated pursuant to this Subsection G.
- (3) The land proposed for dedication does not need to contain the same environmental resources as those resource protection lands on the subject property.
- (4) The land proposed for dedication shall be located within the municipal boundaries of Lower Saucon Township, shall not be within an industrial or commercially zoned area, and shall not contain any natural or man-made features that are inconsistent with the Township's Open Space Action Plan and Policies.
- (5) The land shall be offered for dedication to the Township in either fee simple or via a conservation easement that is acceptable to the Township Council.
- (6) With the approval of the Township Council, land that is currently occupied by a use, but that contains significant natural or historic resources, may be considered for dedication to the Township.
- (7) If the Applicant demonstrates that, after a good faith effort, it was unable to obtain, on commercially reasonable terms and conditions, any or enough property for dedication pursuant to this subsection, the Applicant may meet the requirements of this Subsection G by submitting a fee-in-lieu of dedication in accordance with the calculations in the Lower Saucon Township Subdivision and Land Development Ordinance, Section 145-51.E, with the "tract" referenced in Section 145-51.E therein to mean, for purposes of this Section 180-109.G, the number of acres required to be dedicated pursuant to the calculation in Section 180-109.G(1). The applicable calculated fee-in-lieu of dedication shall only be used by the Township for the purposes authorized by the Township's Open Space plan.
- (8) An applicant choosing to develop an industrial use in accordance with this Subsection G shall demonstrate and make the required dedication and/or fee-in-lieu of dedication payment prior to final land development approval by the Township Council."
