Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The Town Board of the Town of Moreau has taken a hard look at the environmental impacts which may occur as a result of the adoption of Local Law 2 of 2024 and has determined that the adoption will result in no significant environmental impact. The action will further have no adverse impacts on the public health or facilities. Further, the adoption of the law is a reasonable exercise of government authority. The purpose of the law is to provide for the health, safety and welfare of Town residents and visitors to the Town parks, and to provide clarity and flexibility regarding the hours of the various parks in the Town.

<input type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
<input checked="" type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
