Call to Order

The meeting of the Common Council was called to order by Mayor Carnrike at 6:30 p.m.

Public Hearing – Establishment of a Dog Park Within Greenway Park - Mayor Carnrike opened the Public Hearing at 6:30 p.m. for the proposed creation of a dog park within Greenway Park.

Ms. Hannah Baker explained her vision for the park and the progress on her efforts to secure funds and assistance for the park. Ald. Zieno asked if the Army Corps Engineer had been contacted for any concerns. A Jones from Chenango County Emergency Management had been contacted and there are no concerns. Several members of the community were in attendance and spoke during the public hearing. Some questions asked were who is responsible for the cleanup of dog waste, what happens if a dog bites another dog or person, do the dogs have to have current shots and who would enforce that, will there be areas separated for large and small dogs. Ms. Baker responded to those concerns stating that dog owners needed to be responsible for taking care of their dogs including cleanup and making sure they are current on their shots. Signage will be posted at the park with all rules and, although not “patrolled” by the City, they can be fined by The City for non-compliance.

A few members in attendance (among them Sarah Stewart and Jen Post, residents of Norwich) who have utilized dog parks in other areas said they have never seen an issue at the parks. The people who utilize the parks are there for the benefit of their dogs and follow the rules and clean up after their animals. The people that tend to become regular users of a dog park generally tend to help enforce the rules and exert “peer pressure” for others to follow the rules. Another person stated that she has been to dog parks where persons don’t clean up after their animals. Ms. Taylor, a local dog trainer felt a dog park is very needed.

A question was asked regarding the potential loss of the playground equipment. Ms. Baker responded that some of the equipment may be relocated within the park. Chris Sprague, Parks Commission Chair, stated that the Parks Commission has been trying for some time to find a place to put a dog park separate from any current park. With no other option or available property, this is probably the best solution. The best solution would be to replace and relocate the merry-go-round, swing set, and bouncy toys within the park but would be contingent upon the funds for replacement.

Robert M. Jeffrey, Ward 4, 5, 6 Supervisor and Executive Director of the Northeast Classic Car Museum stated that many people coming to Norwich to visit the museum have asked if there is a dog park in the area and felt the addition of a dog park would be of great value to the City.

Dave Lawson stated that the DEC should be contacted to make sure there is not an issue with the chain link fence set-back. Dave Sheldon from Chobani reported they had pulled all the flood maps and there should be no issue according to their research.

There being no comments, the hearing was closed at 6:47 p.m.
