PUBLIC FORUM

Supervisor Barton asked if there was any other citizen who would like to address the Town Board with any questions or concerns.

Cameron Bodie asked what the Town was going to do about 442 Trimmer Road and asked if the Board received an email detailing the issue. The Board stated they did. He is concerned with the fires they are having in front of the house and the conditions of the property. He said the Fire Department and Sheriff's were at the property last week and left a note stating they could not have the fires, but they continue. Supervisor Barton said he will contact the Spencerport Fire Department to get the report and follow up. He will also follow up with the Zoning Enforcement Officer to have an inspection completed

at which time the Town Board could authorize a Supreme Court action. They have been taken to Town Court previously, the Town Court can only fine them. Mr. Bodie asked if they have paid their fines from previous court matters. Supervisor Barton did not know that and told them they could follow up with the Supervisor in the future to see what is being done.

INFORMATIONAL ITEMS

LAKESHORE

Supervisor Barton should be getting a grant disposal letter for the East Wautoma (Delavergne) soon, which is the final step, and then that project will be able to start. There have been questions about the storm sewers that were slated to start this spring and there was discussion about sending a postcard to residents to give them a status update.

MISCELLANEOUS

Supervisor Barton participated in a zoom meeting with the other Town Supervisors and the topic of conversation was Marijuana sales. He has some information that he will email to the Board for review. There is a way for the Town to opt out of the sales if they wanted to but there are timelines in which to do that. The consensus among Supervisors was that most Towns would not opt out of allowing sales in their Towns. Supervisor Barton noted that even if they do not opt out they could control sales through zoning.

LIAISON REPORTS

**Councilperson Keller reported there was a Zoning Board meeting on March 17, 2021. There are some concerns with why so many applications are being tabled. Last meeting of the five applications four were tabled. He is going to be more conscientious as to why applications are being tabled. If they are being tabled for comments from the attorney, it might be time to start bringing the attorney to the meetings. If it is for lack of information, those should be stopped in the building department. If all information is not received the applications should not be accepted and put on the agenda. If this trend continues the Agenda's will be rather lengthy. Councilperson Keller said that Zoom is not very functional for this kind of meeting because so many times things are having to be repeated because people cannot hear everything over zoom. At a minimum, better technology should be put in place. Supervisor Barton felt that once the boardroom is available again members should be attending.

****Councilperson Zajac reported there will be a meeting with the village and other committee representatives that oversee the Special Police. There is a lot of confusion around the expectations and circumstances considering things are not written down, there are no minutes from any of the committee meetings and nothing documented. He would like a motion to reinstate the road patrol at the next meeting. There is a meeting with the Insurance Company in the morning to see what the costs will be if the Special Police carry handcuffs and tasers. Councilperson Roose said the reason there was not a lot of documentation was because they went to a very simplified traffic control unit.**

****Councilperson Roose reported the Village Offices opened on April 5, 2021 to the Public. He noted that there are discussions at Recreation about upgrading the surfaces throughout the trails of the Park.**

****Councilperson Judd reported she is still working on the Historical Marker that went missing to get it replaced. The Annual Report for the Library has been completed. They are working to update the Collection Development Policy. Their hours for summer and fall have been set. They are still waiting to hear about the Monroe County Development Block Grant.**

Supt. Christ is recommending that Kyle McDonald be advanced to Step 3 MEO position on his anniversary date of April 27, 2021. He is currently a Step 2 MEO. Mr. McDonald is a great employee who is always stepping up to help in any way he can. Supt. Christ will get the information together before the next meeting and have it sent to the Board. There was discussion about the step program and the union contract.
