 - a. Burzlander Park discussion
Scott Kosiba briefed Board Chair Paravacini on discussion of Burzlander from the previous meeting. Using this location for dry camping may solve the issue of being an underutilized park. Scott brought up how dry camping would open a variety of amenities to campers because of its central location to groceries, restaurants., etc. The Board agreed that the future of this park should include permanent year-round use restrooms. As for the master plan, dry camping can be added as a probable option. This option would include starting with one or two spots to see if they get used then going from there. The Board also discussed charging a fee for overnight camping. They agreed that a donation may be a better approach rather than a fee.
