paz@townofpinedale.us

PERMIT REQUIRED	PERMIT <u>NOT</u> REQUIRED
<ul style="list-style-type: none"> • New construction on site (i.e. stick-built) • Installing off-site built structures (i.e. mobile homes, modular/manufactured, cabins, etc.) • Additions (horizontal and vertical) • Accessory structures (detached garages, shops or sheds on permanent foundations or attached to the ground) • A building permit has expired or there are changes to the original plan • Substantial change of use that effects the exterior and/or site conditions 	<ul style="list-style-type: none"> • Interior remodeling that does not change the use or exterior (check with Engineering regarding code compliance) • Building maintenance (re-roofing or re-siding) • Small sheds not attached to the ground under 120 square feet (must meet setbacks and be in yard)

NOTES

- The Town of Pinedale has adopted commercial building code IBC 2012.
- The Town Engineer will review plans and conduct inspections. The Town does not issue certificate of occupancy permits at this time.
- The State Fire Marshall will review for electrical and fire suppression, it is the applicant’s responsibility to submit plans.
- All new and remodeled buildings for use as schools, restaurants, cafes or any other place where cooking is done and food prepared for the public, other than private dwelling units, are required to provide grease traps or interceptors. All such traps or interceptors shall be of a type and capacity approved by the Town and shall be located as to be readily and easily accessible for cleaning and inspection. In the maintaining of these interceptors, the owner shall be responsible for the proper cleaning, removal and disposal by appropriate means of the captive material and shall maintain records of the dates and means of cleaning and disposal which are subject to review by the Town.
- The Town has not adopted official figures for wind or snow loads, it is the responsibility of the design professional to arrive at an appropriate number.
- The Town of Pinedale does not currently participate in the National Floodplain Insurance Program, as such building within a floodplain is not permitted.
- Contractor licensing is currently not required by the Town of Pinedale.

INSPECTIONS & CONTACTS

- **SCHEDULE INSPECTIONS:** Please call Town Hall (307-367-4136) to request a permit work order within 48 business hours of the respective inspection/review. Notify Town Hall immediately if the inspection needs to be canceled.
- Town of Pinedale Planning & Zoning, Chad Mitchell 307-367-4136
- Director of Public Works, Abram Pearce 307-367-4136
- State Fire Marshal, Mike Reed 307-777-7288
- Call Before You Dig 800-849-2476 or 811 for utility locates (must give descriptive location)

APPLICATION REQUIREMENTS

A building permit application that includes the following:

- Pre-application meeting with Town Staff to discuss process, identify potential issues, etc.
- Completed Building Permit Application, including application fee
- Site Plan (see checklist, 2 full size to scale, 11 x 17 in pdf format)
- Building Floor Plan and Exterior Elevation drawing (1 full size, 1 11 x 17 in pdf format)
- Building Plans for code review (1 set to scale, no smaller than 1/4" = 1')
- Drainage plan (include spot elevations, flow arrows, detention areas, etc., may be included on site plan)
- Approval from Home Owners Association, if applicable (Check with County Clerk)
- Supplemental permit applications, if applicable, including:
 - Water and Sewer Permit Application
 - Demolition Permit Application
 - Excavation in a Right-of-Way Permit Application
 - Fence Permit Application
 - Sign Permit Application
- Any relevant information Planning & Zoning or the Town Engineer requires to adequately review the permit application

FEE

Fee is determined by resolution, refer to www.townofpinedale.us or contact the Town for the fee. Permit fees may be paid by cash, check or money order. If a water and sewer connection permit is submitted simultaneously with the building permit, two separate payments shall be made (one for the water and sewer connection and one for the building permit.)

SITE PLAN

Site plans should be prepared by a design professional to ensure accuracy, limit liability to the property owner, and have professional depiction of your property investment. An accurate and thorough site plan answers the standard and anticipated questions of Town staff, Planning and Zoning Commission, and Town Council which can result in quicker review and approval times making it advantageous to the applicant. In addition, a professionally done site plan is an asset to the current and future property owners when conveying real estate, further developing the property or locating utilities.

COMMERCIAL / NON-RESIDENTIAL BUILDING PERMIT

paz@townofpinedale.us

REVIEW PROCESS

Town Ordinance requires all commercial (non-residential) building permits with permit fees over \$5000 to go through the public hearing process (Planning and Zoning Commission and Town Council.) Once a completed application packet is submitted to the Town, it is sent out for review to applicable agencies including but not limited to Planning and Zoning, Town Engineer, Public Works, Town Attorney and the fire department. Should a professional review be required and contracted outside of Town departments, the review fee will be passed on to the applicant.

Staff will schedule complete applications on a first-come, first-served basis. During the building season you may have to wait until the next month if the agenda is full (estimated time frame if packet is complete and there are no major issues is 2 months.) Applicant or their agent must attend the Planning and Zoning Commission and Town Council meetings or the application will not be heard by the boards. Although Town Council may approve your application, *you may not begin construction until you have been issued a permit.*

*Note that Town Council meetings are held the second and fourth Monday of each month at 5 p.m. Planning and Zoning Commission meetings are held the first Monday of each month at noon.

VALIDITY

The permit is considered null and void if construction does not commence within 60 days of issuance or construction has been commenced within 60 days and then lapses for a period of 120 days.

STATE FIRE MARSHAL

Wyoming State Statute 35-9-108 requires the State Fire Marshal to review and approve new building construction plans and plans for remodeling with costs over \$40,000 before beginning work on the following types of buildings:

- Buildings/structures owned or leased by state or local government entities
- All buildings for public access that exceed 5,000 square feet total floor area (including basement) or exceed one story in height
- Buildings used for child care centers for more than 10 children
- Buildings used for public bars, lounges, restaurants, night clubs, lodge halls, theaters, churches or public meeting spaces regardless of size
- Public or private above ground fuel dispensing facilities

Wyoming State Statute 35-9-121 requires all local enforcement to give notification to the Wyoming State Fire Marshal's office of plans received in their office for review, by filling out the plan review notification form.

If no one has submitted plans to the department for review, and the building or structure falls within these categories, a violation of the requirements under Wyoming State Statute 35-9-130 has occurred.

It is the responsibility of the building permit applicant to comply with the State Fire Marshal requirements.
