Comman Council

Mr. John E. Quinn,
City Engineer,
City of Rensselaer,
New York.

Dear Sir:

Gentlemen!

We are attaching herewith list of part of the parts you require to repair your sweeper. You will please note that the parts listed amount to approximately \$1000.00.

However, this is only the beginning. By the time you take the machine apart you will find it necessary to renew other parts so that we would estimate to put your present sweeper in shape it would cost in the neighborhood of \$2500.00 for parts and labor.

After you do all this you will still have a second hand obsolete machine.

You realize that your present machine is eleven years old and it would be business folly to invest the above amount of money in a 1924 model. We would, therefore, strongly recommend that you purchase a new machine if you can see your way clear to do so.

Sincerely yours,

Contractors White Sales Corp.

By *Albert Mantica*
President.

Alderman Whalen reported that the committee appointed to investigate Buildings for a suitable head quarters for the Emergency Relief Bureau had not decided on a building - Alderman moved second by Ald. Gower that the city clerk communicate with the board of education requesting them to reconsider their former decision in refusing the use of the building at the corner of 3rd and Harvard Ave. and if they do not deem this advisable to kindly inform the board for the reason of their refusal. as the committee feel that money can be saved by the city by the use of this building for if another building is used - the expense incurred for will be considerable over a period of time

Vote (1)

Alderman Pratt reported that the Real Estate experts who were to act as appraisers for the purchase of land ^{if necessary} for the improvement of South Street were making progress and would make their report on same within a few days.

a delegation headed by Leonard Kirsch, from the Revere Twilight Baseball League were looking for information regarding the time when the recreation field at Cambridge would be ready for use and were informed by Mr Kaufman, Executive Director of the Emergency Relief Bureau that weather permitting, the field would be ready for use by May 1st.

The undersigned, members of the committee appointed to tabulate bids received for the purchase of five hundred feet more or less of hose for the fire department, do report as follows:

The following bids were received:

Eureka Company for 50 feet \$57.50 - 5¢ extra per foot for gum treatment.

R. B. Wing & Co., \$50.00 per 50 feet waxed.

Goodrich Rubber Company, \$60.00 per 50 feet - 10¢ extra per foot for wax.

American-LaFrance Co., \$1.15 per foot - \$1.20 per foot waxed.

Hewitt Rubber Company, \$1.20 per foot - \$1.15 per foot - \$1.20 per foot waxed.

The only bid that specified first grade hose was the one received from the Goodrich Rubber Company.

After an examination of the samples which accompanied the bids, this committee was satisfied that the first grade hose of the Goodrich Rubber Company at \$60.00 per 50 feet was the best sample submitted to the committee.

That this committee, therefore, recommends that the city purchase from the Goodrich Rubber Company ~~five hundred feet of~~ ^{Four Hundred and fifty} ~~White King~~, first grade fire hose ^{Waxed} at \$60.00 per fifty feet., waxed.

Dated, March 20, 1935.
