Date: April 24, 2024

This notice has been prepared in accordance with Article 8 of the Environmental Conservation Law by the Town of Rotterdam Department of Public Works Department
(Reference: 6 NYCRR 617.5 Unlisted Action)

SEQRA Status: Type I
Type II
Unlisted

Conditioned Negative Declaration: Yes
No

Owner: Govin Sarju (Owner)
2175 Tower Street
Schenectady, NY 12304

Tax Map Number(s): #59.7-10-1.12

Project Location: Corner of Tower Avenue and Chrisler Avenue.

Zoning: Change of Zone from Single-Family Residential (R-1) to Light Industrial (I-2)

Action: Change of Zone Request on approximately 0.35 acres of from Single Family Residential (R-1) to Light Industrial (I-1). Applicant is proposing to construct a ±2,000 square foot storage garage.

Reasons Supporting This Determination:
(See 617.7(a)-(c) for requirements of this determination)

This project is an Unlisted Action and the Town conducted as a SEQR coordinated review. The applicant has supplied an Environmental Assessment Form and the Town Board has or has caused to complete Part 2 of this checklist.

The Change of Zone request concerns approximately 0.35 acres being rezoned from Single Family Residential (R-1) to Light Industrial (I-1). Property is located at the corner of Tower Avenue and Chrisler Avenue (Tax Map No. 59.7-10-1.12). Applicant is proposing to construct a ±2,000 square foot storage garage.

The applicant received a positive report and recommendation from Planning Commission on the Change of Zone request on February 20, 2024.

The applicant would like the Town Board to approve a Change of Zone to allow for the construction of a ±2,000 square foot storage garage. Very little traffic is anticipated as a result of this use. The property is located with frontage on Crane Street and the property to the north and south are developed with commercial and industrial uses. The property on the west side of Chrysler Avenue is an active CSX Rail Line.

After a review of the applicable modifications, Environmental Assessment Form, and comments received on this proposal, the Town Board of the Town of Rotterdam has determined that this proposal will not have a significant adverse impact on the environment.

The Town Board has considered the following criteria to determine if this proposal has significant adverse impacts on the environment:

- (i) a substantial adverse change in existing air quality, ground or surface water quality or quantity, traffic or noise levels; a substantial increase in solid waste production; a substantial increase in potential for erosion, flooding, leaching or drainage problems;
- (ii) the removal or destruction of large quantities of vegetation or fauna; substantial interference with the movement of any resident or migratory fish or wildlife species; impacts on a significant habitat area; substantial adverse impacts on a threatened or endangered species of animal or plant, or the habitat of such a species; or other significant adverse impacts to natural resources;
- (iii) the impairment of the environmental characteristics of a Critical Environmental Area.
- (iv) the creation of a material conflict with a community's current plans or goals as officially approved or adopted;
- (v) the impairment of the character or quality of important historical, archaeological, architectural, or aesthetic resources or of existing community or neighborhood character;
- (vi) a major change in the use of either the quantity or type of energy;
- (vii) the creation of a hazard to human health;
- (viii) a substantial change in the use, or intensity of use, of land including agricultural, open space or recreational resources, or in its capacity to support existing uses;
- (ix) the encouraging or attracting of a large number of people to a place or places for more than a few days, compared to the number of people who would come to such place absent the action;
- (x) the creation of a material demand for other actions that would result in one of the above consequences;
- (xi) changes in two or more elements of the environment, no one of which has a significant impact on the environment, but when considered together result in a substantial adverse impact on the environment; or
- (xii) two or more related actions undertaken, funded or approved by an agency, none of which has or would have a significant impact on the environment, but when considered cumulatively would meet one or more of the criteria in this subdivision.

The Town Board has also considered the reasonably related long-term, short-term, direct, indirect and cumulative impacts, including other simultaneous or subsequent actions, which are:

- (i) included in any long-range plan of which the action under consideration is a part;
 - (ii) likely to be undertaken as a result thereof; or
 - (iii) dependent thereon.
- (3) The significance of a likely consequence (i.e., whether it is material, substantial, large or important) has been assessed in connection with:
- (i) its setting (e.g., urban or rural);
 - (ii) its probability of occurrence;
 - (iii) its duration;
 - (iv) its irreversibility;
 - (v) its geographic scope;
 - (vi) its magnitude; and
 - (vii) the number of people affected

At a regularly scheduled public meeting of the Town Board of the Town of Rotterdam, held at the John F. Kirvin Government Center, Town Hall, 1100 Sunrise Boulevard, Rotterdam, NY on the 24th day of April, 2024 hereby adopted this **NEGATIVE DECLARATION** pursuant to 6NYCRR PART 617, State Environmental Quality Review.

Full Environmental Assessment Form
Part 2 - Identification of Potential Project Impacts

Agency Use Only [If applicable]
 Project : Sarju COZ - Tower Avenue
 Date : April 24, 2024

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.
