Those service conditions which are within the control of the video service provider. Those

conditions which are not within the control of the video service provider include, but are not limited to, natural disasters, civil disturbances, power outages, telephone network outages and severe or unusual weather conditions. Those conditions which are ordinarily within the control of the video service provider include, but are not limited to, special promotions, pay-per-view events, rate increases, regular peak or seasonal demand periods and maintenance or upgrade of the video system.

### **SERVICE INTERRUPTION**

The loss of picture or sound on one (1) or more video channels.

- B. All video service providers shall adopt and abide by the following minimum customer service requirements.
1. Video service providers shall maintain a local, toll-free or collect call telephone access line which may be available to subscribers twenty-four (24) hours a day, seven (7) days a week.
  2. Video service providers shall have trained company representatives available to respond to customer telephone inquiries during normal business hours. After normal business hours, the access line may be answered by a service or an automated response system, including an answering machine. Inquiries received after normal business hours shall be responded to, by a trained company representative, on the next business day.
  3. Under normal operating conditions, telephone answer time by a customer representative, including wait time, shall not exceed thirty (30) seconds when the connection is made. If the call needs to be transferred, transfer time shall not exceed thirty (30) seconds. These standards shall be met no less than ninety percent (90%) of the time under normal operating conditions, measured on a quarterly basis.
  4. Under normal operating conditions, the customer will receive a busy signal less than three percent (3%) of the time.
  5. Customer service centers and bill payment locations shall be open at least during normal business hours and shall be conveniently located.
  6. Under normal operating conditions, each of the following standards shall be met no less than ninety-five percent (95%) of the time measured on a quarterly basis:
    - a. Standard installations shall be performed within seven (7) business days after an order has been placed. "Standard" installations are those that are located up to one hundred twenty-five (125) feet from the existing distribution system.
    - b. Excluding conditions beyond the control of the operator, the video service provider shall begin working on "service interruptions" promptly and in no event later than twenty-four (24) hours after the interruption becomes known. The video service provider must begin actions to correct other service problems the next

business day after notification of the service problem.

- c. The "appointment window" alternatives for installations, service calls and other installation activities will be either a specific time or, at maximum, a four-hour time block during normal business hours. The operator may schedule service calls and other installation activities outside of normal business hours for the express convenience of the customer.
  - d. A video service provider shall not cancel an appointment with a customer after the close of business on the business day prior to the scheduled appointment.
  - e. If a video service provider's representative is running late for an appointment with a customer and will not be able to keep the appointment as scheduled, the customer must be contacted. The appointment shall be rescheduled, as necessary, at a time convenient for the customer.
7. Refund checks shall be issued promptly, but no later than either:
    - a. The customer's next billing cycle following resolution of the request or thirty (30) days, whichever is earlier; or
    - b. The return of the equipment supplied by the video service provider if the service is terminated.
  8. Credits for service shall be issued no later than the customer's next billing cycle following the determination that a credit is warranted.
  9. Video service providers shall not disclose the name or address of a subscriber for commercial gain to be used in mailing lists or for other commercial purposes not reasonably related to the conduct of the businesses of the video service provider or its affiliates, as required under 47 U.S.C. § 551, including all notice requirements. Video service providers shall provide an address and telephone number for a local subscriber to use without toll charge to prevent disclosure of the subscriber's name or address.
- C. As required by Section 67.2692, RSMo., this Section 600.240 shall be enforced only as follows:
1. Each video service provider shall implement an informal process for handling inquiries from the City and customers concerning billing issues, service issues and other complaints. If an issue is not resolved through this informal process, the City may request a confidential non-binding mediation with the video service provider, with the costs of such mediation to be shared equally between the City and the video service provider.
  2. In the case of repeated, willful and material violations of the provisions of this Section by a video service provider, the City may file a complaint on behalf of a resident harmed by such violations with Missouri's Administrative Hearing

Commission seeking an order revoking the video service provider's Public Service Commission authorization. The City or a video service provider may appeal any determination made by the Administrative Hearing Commission under this Section to a court of competent jurisdiction which shall have the power to review the decision de novo. The City shall not file a complaint seeking revocation unless the video service provider has been given sixty (60) days' notice to cure alleged breaches but has failed to do so.

**Section 600.250 Public, educational and governmental channels.**

Each video service provider shall designate a number of channels for public, educational and governmental programming consistent with RSMo. 67.2703, provided that any greater number of channels, as may be required in the incumbent cable franchise or franchise chapter, shall be required pursuant to RSMo. 67.2703.2. The city shall bear no cost relating to the transmission, availability or maintenance of such channels unless expressly authorized by the city in writing and approved by the City Council. Incumbent cable operators and other video service providers shall provide support for such public, educational and governmental channels consistent with RSMo. 67.2703.8.

**Section 600.260 Compliance with Other Regulations.**

All video service providers shall comply with all other applicable laws and regulations.

**Section 600.270 Notice.** A copy of this Article shall be delivered to each video service provider operating in the city after notice to the city that such provider is authorized to provide service within the city, provided that the provisions of this Article shall, to the extent permitted by law, not be affected by any claimed or actual failure of a service provider to have received delivery of a copy of this Article.
