Fee Analysis

- (a) Except for those fees and charges specifically enumerated in other sections herein, the fee assessed for duplication of a government record shall be in accordance with the maximum amount set forth in N.J.S.A. 47:1A-1 et seq., as may be amended from time to time.

- (b) Whenever the nature, format, manner of collation or volume of a government record embodied in the form of printed matter to be inspected, examined or copied as permitted by law is such that the record cannot be reproduced by ordinary document-copying equipment in ordinary business size or involves an extraordinary expenditure of time and effort to accommodate the request, the Township may charge, in addition to the actual cost of duplicating the record, a special service charge that shall be based upon the hourly rate of \$30 if the duplication is performed by a nonmanagerial/nonexecutive/clerical employee or the hourly rate of \$60 if the duplication is performed by a managerial/executive/professional employee, which rates represent the average cost of an employee of that type on an hourly basis. In the event the record as described in this section must be sent out for copying to a copy facility within Bergen County, the cost of duplication shall be the actual cost of duplication charged by such facility even if the cost exceeds the maximum rates set forth in N.J.S.A. 47:1A-1 et seq. The requester shall have the opportunity to review and object to the charge prior to it being incurred.
