

DRAFT Minutes of December 4, 2018 Environmental Committee of Fenwick Island

Attendees: Mary Ellen Langan, Virginia Davidson, Roy Williams, Alex Daly, Buzz and Betsy Henifin.

PLASTIC STRAWS. Mary Ellen showed paper poster reminders for restaurants to be posted in bar areas. These will be shown at the council meeting.

OBJECTIONS TO SEISMIC TESTS IN THE OCEANS. A letter writing campaign should be aimed at Congress strongly objecting to seismic tests off our beaches.

Mary Ellen reported on the Littoral Society (Champions of the Coast). More information is needed about the Society's activities as Mary Ellen has not yet been able to speak to them.

OLD BUSINESS: The problem of water on the roads at bayside was discussed. Bayside residents will monitor water. There was discussion on ways to combat this problem. Alex will call Ocean City to find out what they do about surface water. Mary Ellen commented that the best we can do may be to get people's attention on this problem.

NEW BUSINESS: We need to be thinking about new ideas for Earth Day.

Next Meeting; December 14, 9 AM, with dredging committee.
