

Hillsborough Township's Office of Emergency Management Director, John Sheridan as well as a representative from the Township's Engineering Department will also be available during the Open House to assist residents with questions.

The following information will not be available at this event: Disaster-related recovery efforts and outstanding insurance claims.

"Please plan to attend this event if your property is currently mapped within a Special Flood Hazard Area (SFHA), newly mapped into an SFHA, and/or if you currently have flood insurance. If you are unsure of your flood risk, please refer to the Preliminary FIRMs which are available on the FEMA Map Service Center website, <https://msc.fema.gov/portal>, or call the FEMA Map Information eXchange (FMIX) at 1-877-FEMA MAP (1-877-336-2627) or your local flood plain administrator or building official," concluded Committeewoman McCauley.

If you are in a high-risk flood zone, known as the SFHA, you may be required by your lender to carry flood insurance. FEMA staff will be available at the Open House to talk about these changes.

Flooding is the number one natural disaster in the United States. It is vital for property owners to understand their risk and take advantage of tools and programs available to them. Property owners can take action by purchasing flood insurance and implementing mitigation actions to help reduce future flooding impacts.

The preliminary flood hazard maps that will be shared at the Open House are an update of the existing FIRMs. These preliminary FIRMs and the associated Flood Insurance Study (FIS) provide the basis for flood risk education and floodplain management measures. Somerset County is required to adopt updated maps to continue participating in the National Flood Insurance Program (NFIP), which makes flood insurance available to the community.

For additional information on flood hazard risk and the mapping process, please visit www.region2coastal.com.
