Hillsborough Township Recognized at the 2015 New Jersey Complete Streets Summit for Adopting a “Complete Streets Policy”

Presented at Rutgers University by the New Jersey Department of Transportation, the Federal Highway Administration and the Alan M. Voorhees Transportation Center

Hillsborough Township was recently recognized at the 2015 New Jersey Complete Streets Summit by the New Jersey Department of Transportation, the Federal Highway Administration and the Voorhees Transportation Center for adopting a “Complete Streets Policy”.

A Complete Streets Policy enables safe access to all road users including pedestrians, bicyclists, transit vehicles and motorists. A Complete Street is defined as a means to provide safe access for all users by designing and operating a comprehensive, integrated, connected multi-modal network of transportation options.

“Complete Streets ensure safe access for all users. The ability for pedestrians, bicyclists, motorists and transit riders of all ages and abilities to move safely along and across a Complete Street is the driving force behind our policy,” commented Deputy Mayor Greg Burchette, Liaison to Planning.

“Being a complete street municipality enhances Hillsborough opportunities for favorable grant funding for road infrastructure improvement projects,” added Deputy Mayor Burchette.

The New Jersey Complete Streets Summit brought together planners, engineers and policy-makers from throughout the state to further develop strategies for a providing safe, multi-modal transportation system that is accessible to all users.
