

## Hillsborough Township Again Achieves Sustainable Jersey's® Highest Certification Level

*One of 25 Towns in 2016 to Achieve Silver*

Sustainable Jersey representatives announced on November 15, 2016 at the Sustainable Jersey Luncheon that Hillsborough Township has once again met the rigorous requirements to achieve its fifth Sustainable Jersey certification. Hillsborough Township is one of only 25 New Jersey municipalities to have attained certification at the silver-level in 2016. The first three certifications for Hillsborough have been at the bronze-level. This is the second year in a row that Hillsborough has been certified at the silver level, the highest available certification.

"Hillsborough Township began sustainable initiatives in 2006. Sustainability and planning has been ongoing with the focus being to plan for the future to ensure our community has balanced economic, environmental and social objectives, developed with public input," stated Committeewoman Gloria McCauley, Liaison to Sustainable Hillsborough Steering Committee.

"Thanks to the efforts of our Business Advocate/Sustainability Director, David Kois, who once again, spearheaded the submission along with the volunteers of the Sustainable Hillsborough Steering Committee and Employees from our Municipal Departments, we are extremely proud of this achievement," stated Mayor Frank DelCore.
