Hillsborough Township's Website Redesigned

Municipal websites have become one of the most important tools for citizens to obtain information about municipalities, according to a Monmouth University Poll that was conducted last year on Best Practices for Municipal Websites.

“The Hillsborough Township’s Municipal website has been redesigned in an effort to be more user-friendly and easier to navigate,” stated Mayor Doug Tomson at Tuesday’s Committee Meeting.

The newly designed website boasts a streamlined navigation method for residents to easily utilize the many resources that can be found on the Township’s website, particularly the most commonly requested website information. Whether you are looking for information on a building permit, obtaining information for an upcoming Health and Wellness Clinic or checking on emergency information during a storm, the Township’s website is the place to visit.

Mayor Tomson encouraged all residents to take the opportunity to visit the newly designed website in the coming days to become aware of the amount of useful information available.

“The migration to the new site is still in the process of being completed; however we are excited to share the progress thus far with our residents,” concluded the Mayor.
