Hi Tammy,

Thank you for letting me know about the use of this dock that was just installed. The background is it was a grant applied for in 2016 for ADA Improvements to Crystal lake and awarded in 2017. I've attached a sketch of what was submitted. Specifically the dock was to be used as an ADA fishing dock.

I will request our Village PD to patrol more frequently and also speak to the engineering firm. I personally do not like a lot of signs, will also look into what would be appropriate.

Dear Gary,

What is the story with this crazy handicapped platform at crystal lake???? It is a lure for kids to get hurt in a major way! Who decided to do this? It is dangerous. Kids are already jumping off of it. It is slippery metal. There is no safe way to protect our children.

Argh!

They are diving off and jumping into  
The lake already and it has just happened.

Help!!!!

Best,

Tammy Valentino
