Subject: Priceless information and access to experts to revitalize your community

Dear Mayor,

The complexity of re-purposing blighted properties requires skillful navigation and access to current information and experts. We invite you or a representative from Village of Rhinebeck to join us at the Center for Creative Land Recycling's **4th Annual Redevelopment Summit: Pathways to Revitalization** to learn what's new, what's next, and what's possible in land reuse and community revitalization.

"I found the CCLR conference stimulating, informative and exciting! The CCLR staff and the panels of developers, public agencies, attorneys and municipal officials provided our Greenwich delegation with invaluable information, advise on a path forward, and most of all, optimism and hope for the future of our brownfields sites!" Pam Fuller, Mayor, Village of Greenwich

This premier event is for elected officials, planners, IDA's, community groups and redevelopment professionals working to improve communities through the beneficial reuse of underutilized and environmentally-impacted properties.

You'll get solid information on:

- Opportunity Zones: How they work and their potential to spark growth
- Positioning properties to maximize market appeal
- Accessing state/federal resources and leveraging private investment
- News on emerging contaminants and other policies
- One-on-one meetings with subject-matter public and private-sector experts
- Best practices to apply back home

You'll get updates from featured municipalities on our Spotlight on Municipalities panel, hear Utica, Rochester and Ilion/Herkimer County pitch properties to developers, and learn lessons from Canajoharie's redevelopment story from Montgomery County Executive and this team. We are pleased that Dale Bryk and John Maggione from the Governor's office will also speak about the State's energy and environmental priorities.

Click bit.ly/4thNYSSummit to find out more about the 60 experts speakers you'll meet and the topics you'll hear only at CCLR's Redevelopment Summit. [AICP members can earn Certification Maintenance \(CM\) credits at this event.](#)

When: June 11, 2019 1pm-6:15pm followed by a Networking Reception and June 12, 2019 8:00am-3:45pm (includes breakfast and lunch).

Where: The Armory at Sage College, 130 New Scotland Ave. Albany, NY

Wherever you are in your redevelopment process, you'll leave with actionable information and connections to move your projects to the next phase.

Please be in touch with me at 646-712-0535 if you have any questions or to discuss CCLR's services as EPA's Technical Assistance to Brownfield Communities provider for New York State.

REGISTER TODAY at bit.ly/4thNYSSummit. We hope to see you in Albany!

Best wishes,

Jean Hamerman,

Deputy Director, The Center for Creative Land Recycling
