He explained that *Friends Making A Difference* is a group of businesses that get together to support someone going through a hardship. He said Ms. DeVito has a very aggressive type of cancer, and he was happy to see the outpouring of support from the Robbinsville residents. He said about 300 people were at the event, they raised \$14,000 and they will keep the collections open for another week.

Mr. Witt then asked about the Tomm May Run.

Mr. Barker said that the annual Christmas Tree and Menorah lighting will take place on Tuesday, December 6th. He said they will have a photographer taking pictures for a donation, and the money raised will go to a good cause.

Ms. Ciaccio said that the Tomm May Run is a very important run. She said Tomm May was on our Environmental Foundation and he fought hard not to put a landfill in a Robbinsville, which helps with our quality of life. She said unfortunately, he died tragically. She said his family was very active in town and they come back every year for this event. Ms. Ciaccio said that the Life Tree church comes and cooks on the grill and provides free snacks and drinks for everyone. She said they had a good turnout and a lot of people attend such as Public Works and the Police Department, it is a very nice event.

Ms. Ciaccio said she went to the Historic Preservation meeting and on the historic part of Route 130, there is an office building with a home health aid office going up, and they went over the plans. She said we are building up Route 130, which is good.

Mr. Witt asked about the historic artifacts.

Ms. Tozzi said we have been slowly going through them, so we can identify what will go into the building and what will go in another location.

Ms. Ciaccio thanked Mr. Barker, Ms. Tozzi and Mayor Fried for the attending the Tomm May Run, and said it was a great event to get everyone in town together.

Ms. Stamboulian thanked the town for all their support.

REPORTS OF BUSINESS ADMINISTRATOR/MAYOR

Mayor Fried said he met with Amazon, Upper Freehold, Allentown, Mercer County, and Mr. McGough to work on the traffic issues that Amazon causes. He said they are running six buses a day down Gordon Road and they would like to start to use police to direct traffic. He said he doesn't want it to turn into a disaster like last year.

Mayor Fried said the road needs to be widened, and there is a property on tonight's agenda that we are looking to purchase to widen the road. He said he thinks it's Amazon's responsibility and he will push them to buy the property from us. Mayor Fried then asked Mr. McGough to explain.

Mr. McGough said there are two residential units, but it's considered one property. He said all the other properties are owned by Matrix.

Mayor Fried said this is not something we would normally do, but it ultimately makes sense. He said they are conducting a traffic study for the whole County, and they will come back with recommendations for a long term solution.

Mayor Fried said there is a Mayor's scholarship through the League of Municipalities. He said we've had two people from Robbinsville win in the past.

Ms. Tozzi said that she was glad Mr. Calcagno made the suggestions for the natural light in the new municipal building. She said it really makes a difference and was implemented well.

Mr. Calcagno said it made sense to do and he cannot wait to see it.

PUBLIC PARTICIPATION

Ms. Marie Ondy, 178 Robbinsville – Edinburg Road, thanked Mayor and Council for the effort being made to save the land. She said that with all the damage that was caused getting that land ready, she will most likely never see the trees or wildlife there again. She also said all of the noise, dirt and diesel fumes during dinner hours and all day on Saturdays are really affecting their quality of life, and she can't imagine dealing with this for another decade. Ms. Ondy said she has yard signs available after the meeting if anyone wants one.

Mr. Gary Backinoff, attorney for Washington Woods, said he's been in the land use field for 35 years and he gave his background. He said he sincerely believes that the cooperation between the Township and engineers and planners came up with a good plan for this property, and especially with the 165 acres of open space and the dedication of \$700,000 in affordable housing funds, would make sense to implement this project.

Mr. Backinoff said that he is a nature freak and enjoys hiking and kayaking and would like to give an additional 50 acres to open space. He said it does not make sense to come in at the 13th hour to take this property, funds would be a lot better spent and it would make more sense to take other properties. It doesn't make sense to come in at the 13th hour to take this property - it would make more sense to take other properties He said you probably already made up your minds, since you paid the first bond ordinance last week, however after I made the pitch for not taking it for open space and asking Council to approve the bonds, they ignored that and went right to court. He said that the court has allowed the builder, pursuant to its legal rights to continue to work on the project and implement DEP approvals. He said he is requesting that Council approves the bonds that they didn't last month and that Council really thinks about taking this land.

Mr. Backinoff said that the owner of the property isn't just going to roll over; he has put a lot of time and money into this project. He also said it is going to cost the Township a lot of money and he hopes Council votes tonight at least to take the right step in regards to the bonds.

Mr. Roselli asked if they did an environmental assessment with respect to species on the land, especially with there being an eagle that landed on the property.

Mr. Backinoff said he didn't recall.

Further discussion occurred.

There being no one further from the public wishing to speak, Mr. Schuberth offered a motion to close the public participation portion of the meeting. The motion was seconded by Ms. Ciaccio.

He said there are 150- year -old trees being knocked down for no reason

at all, we are going to vote on open space, then why is it continuing and why aren't we doing something about it.

Mr. Witt said we are trying.

Mr. Kohut said once these trees are cut down, you are not going to be able to replace them. He said he called the police today about it and nothing was done. Mayor Fried said that for the community's sake and for the record's sake, he does have the bond ordinances here tonight and he is actually going to sign them to start the clock ticking. He said in contrast to what the attorney said, he believes that he did have an agreement with the developer but he did announce that he wanted to buy back this land back in April. Mayor Fried also said that we have mentioned to them time and time again that we would wait until after the referendum, and they started doing the work, going far beyond the DEP permits. He said there is nothing we can do about it; we have tried to sit down with them numerous times and hopefully we can meet with them next week. He said that they said we have not been forthright with our intentions and that is not true; they have known all along. He said in conjunction with the DEP permit, they asked us to set up a meeting with DEP to sign an extension and then at that meeting, they argued that they would sue DEP if they gave them that extension. Mayor Fried said we are going to do our best to do what's right for our community. He said he is not blaming the developer for trying to do what he is doing, but unfortunately things changed for our town overnight, to where it would not be a good idea to build that project anymore. He said he doesn't understand why they are going and destroying these trees; it is unnecessary. Again, I will be signing this tonight, the clock will be ticking on the twenty days, we will approach the court and ultimately they will be making this decision.
